Automated Budget and Evaluation System of Texas (ABEST)

724 The University of Texas at El Paso

The University of Texas at El Paso
Administrator's Statement
2024-2025 Legislative Appropriation Request
88th Regular Session

Founded in 1914 as the Texas State School of Mines and Metallurgy, The University of Texas at El Paso (UTEP) is America's leading Hispanic Serving University. We are the second-oldest academic component of The University of Texas System. We have grown from a small regional college to a nationally ranked research university that serves not only the Paso del Norte region but also students from the rest of Texas and around the world.

UTEP is a comprehensive public research university that is increasing access to excellent higher education. We advance discovery of public value and positively impact the health, culture, education, and economy of the community we serve.

At UTEP, we believe that higher education is the single best pathway to opportunity and a better life. We provide excellent education, millions of dollars in merit scholarships and need-based aid, while keeping average out-of-pocket cost among the lowest of any national research university.

Our mission, coupled with our unique geographical setting, has positioned the University to serve as a national model for Hispanic-Serving Institutions. UTEP is one of 28 institutions in the U.S. and three in Texas that is both among the top 5% of research institutions in the country (a Carnegie R1 institution) and among the 119 designated Carnegie Community Engaged Institutions. We have achieved both while serving a student body that is over 90% minority, two-thirds of whom come from families making less than about \$40,000 a year (as measured by Pell Grant eligibility).

UTEP's average tuition and fees rate of \$8,652 per academic year for full-time resident undergraduate students is the lowest among research institutions in Texas and among the lowest of all U.S. research (R1) institutions. Sixty-seven percent of UTEP undergraduates receive grants or scholarships and, through the Paydirt Promise, UTEP covers tuition and fees for eligible undergraduate students with family incomes up to \$75,000 per year.

The unique role and significant contributions of The University of Texas at El Paso have regional, statewide and national impact:

- UTEP chairs the Alliance of Hispanic Serving Research Universities that includes all 20 top tier research universities in America that are also Hispanic Serving Institutions.
- UTEP has the highest Hispanic student enrollment rate (83%) and the highest percentage of full-time Hispanic faculty among the 146 top U.S. research (R1) universities.
- Each year, UTEP enrolls more than 24,000 students and produces more than 5,000 graduates. About half of our graduates are the first in their families to attend college.
- In 2021, UTEP surpassed \$109 million in total research expenditures for the year. The University of Texas at El Paso is number six in Texas for federal research expenditures at public universities.
- UTEP is categorized as an "open access inclusive" university under the Carnegie's selectivity categorization yet our first-year retention rate of 77% exceeds the national average for "selective" universities (75%).
- UTEP has led the El Paso Collaborative for Academic Excellence for over 25 years. The Collaborative is a community-wide partnership established to improve the academic success of students from pre-K to graduate school in the Paso del Norte region. Since the Collaborative's inception, the region has seen significant improvements in test scores

Administrator's Statement

Automated Budget and Evaluation System of Texas (ABEST)

724 The University of Texas at El Paso

and high school graduation rates; increases in college readiness programs and in the number of higher education degrees and certificates awarded; and reductions in academic achievement gaps across demographic groups.

- As a result of consistent effort over time by the Collaborative, UTEP and El Paso Community College, according to Federal Labor Department Statistics, when measured by “some college or above,” El Paso’s workforce is the second most educated in Texas – behind only Austin.
- Nearly all UTEP programs - at all levels - rank nationally among the top-ten in the number of degrees awarded to Hispanics, and many rank in the top five, including accounting, biology, and engineering at the bachelor’s level, English, engineering and physical sciences at the master’s level, and education and engineering at the doctoral level.
- UTEP’s computer science program has been designated a Center of Academic Excellence in Cyber Defense and Cyber Operations Education by the National Security Agency.
- The Center for Transportation Infrastructure Systems is the only one in the nation that is designated as both a regional and national Transportation Center of Excellence.
- UTEP recently received a \$5 million endowment from the Hopper-Dean Foundation to endow our computer science teacher education initiatives. The Hopper-Dean Foundation Center of Excellence for K-12 Computer Science Education at UTEP will partner with “CSforALL”, a National Science Foundation-supported organization, to ensure high-quality computer science curriculum is an integral part of the educational experience for K-12 students in the El Paso region. This will build on UTEP’s success in computer science education. Over five years, UTEP has tripled the number of computing students, to over 1200 students enrolled in 2021.
- With an annual operating budget of more than \$500 million and more than 3,500 faculty and staff, UTEP is one of El Paso’s largest employers and drivers of economic growth in the region. Economic impact studies by Economic Modeling Specialists International, Inc. and by the Institute for Policy and Economic Development have estimated that UTEP’s presence creates 6,577 additional jobs in the region and adds \$1.4 billion to the regional economy each year.

The University also contributes significantly to the community through service. In 2018, the Texas Governor’s Office recognized the University with the Higher Education Community Impact Award, part of the annual Governor’s Volunteer Awards. UTEP contributes more than 1.5 million hours of service annually to the community. Approximately 7,800 students engage in the community through academic-based community engagement, and more than 9,800 in community service. According to Independent Sector, a coalition of nonprofits, foundations and corporate giving programs, this service is valued at nearly \$38 million contributed to the community annually.

Research

In the early 1990s, with annual research expenditures in the range of \$3 million and a single doctoral degree program, the opportunity to expand doctoral education opened, and UTEP decided to pursue research and doctoral education as major building blocks for our future. Today, UTEP conducts over \$109 million in annual research expenditures and awards well over 100 doctoral degrees annually.

In June 2022, UTEP joined nineteen of the nation’s top research universities to form the Alliance of Hispanic Serving Research Universities with the goals of doubling the number of Hispanic students pursuing Phds and increasing Hispanic faculty.

724 The University of Texas at El Paso

The 20 universities from 9 states in the Alliance include every university that has been both categorized as R1 (very high research activity) by the Carnegie Classification of Institutions of Higher Education and designated as a Hispanic Serving Institution by the U.S. Department of Education. UTEP was selected to serve as the inaugural chair of the Alliance.

As a national leader in cybersecurity education and research, UTEP is strengthening the cybersecurity workforce and combatting global security challenges. We are one of only 20 colleges and universities in the nation designated as a Center for Academic Excellence in two National Security Administration focus areas: cyber defense and cyber operations.

In 2021, UTEP's research prowess was recognized by the United States Space Force, which selected UTEP as member in its University Partnership Program. UTEP was also selected as a winner of a Space Force University Consortium Research Opportunity. The partnership will enhance science, technology, engineering, and mathematics (STEM) study and research projects that foster national security objectives in the space domain. The select group of 14 institutions were determined based on the quality of STEM degree offerings and space-related research laboratories and initiatives; a robust ROTC program; a diverse student population; and degrees and programming designed to support military, veterans and their families in pursuing higher education.

Bolstering our research impact, UTEP operates several nationally prominent research centers.

The Center for Inland Desalination Systems

This center focuses on research into technologies and approaches to maximize the benefits of water desalination while minimizing the input energy and the environment. The Center has several regional partners, including the El Paso Water Utilities Public Service Board, which manages the largest inland desalination facility in the United States. The 27.5 million-gallon-per-day desalination facility is a partnership between the City of El Paso and the U.S. Army base at Fort Bliss.

The W.M. Keck Center for 3-D Innovation

The Keck Center is a national leader in state-of-the-art additive manufacturing. In 2015, the Keck Center became the first satellite center for America Makes, the nation's leading and collaborative partner in 3D printing technology research, discovery, creation and innovation. Structured as a public-private partnership with member organizations from industry, academia, government, non-government agencies, and workforce and economic development resources, America Makes partners work together to innovate and accelerate 3D printing to increase the country's global manufacturing competitiveness.

The Aerospace Center

This center, supported by the NASA Minority University Research and Education Project, conducts research using computational modeling of heat flow, fluid flow and structural analysis to create test hardware and experimental facilities in space propulsion, small satellite design and combustion in the energy sector. In 2018, experts from the center worked with leaders from El Paso County, the City of El Paso, El Paso International Airport and other local government entities to install the country's first wide-area operational, low-altitude unmanned aerial systems traffic management system.

Border Biomedical Research Center

This center facilitates and expands biomedical research at UTEP by strengthening the research infrastructure of the institution. The Border Biomedical Research Center is the focal point of biomedical research that addresses the biomedical and health issues of the bicultural population of the El Paso/Ciudad Juarez region of the Texas-Mexico border. UTEP has developed an extensive cadre of collaborators consisting of experts from regional academic, medical, and community partners with the goal to address cancer health disparities that permeate our majority Mexican American population. When combined with our sister city of Ciudad Juarez, Mexico, we

Administrator's Statement

10/12/2022 10:34:03AM

88th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

724 The University of Texas at El Paso

represent one of the largest bi-national communities in the world.

Center for Advanced Materials Research

This center focuses its research in two areas of materials science, energy, and biomaterials, with an emphasis on fundamental science and engineering for a wide variety of technological applications. The Center is committed to providing hands-on education in interdisciplinary trades, which will create a pipeline of dynamic engineers and scientists ready to join the future STEM related workforce, especially in the energy and defense sectors.

Center for Environmental Resource Management

This center provides university-wide leadership and coordination for environmental research, education, and outreach activities. The Center's priority areas of research are environmental health, water resources, desert and wetland ecology, air quality and environmental education. Established in 1990, the Center's impact spans from the local community to state, regional, national, and international levels.

Center for Transportation Infrastructure Systems

The Center serves as the regional and national source for preparing new professionals for the twenty first century transportation workplace through research in complex transportation systems. The Center sustains innovative research in core areas of transportation materials and design; infrastructure evaluation and management; and planning, operations, and logistics. The main goals of the Center are to address the needs for basic and applied research related to transportation infrastructure and lifeline.

Cyberinfrastructure for Sharing resources to Advance Research and Education Center of Excellence

Created in 2007, the Cyber-SHARE Center of Excellence conducts research on the integration of knowledge, models, and data in collaborative contexts, especially across disciplinary and organizational boundaries. This includes research on collaborative processes, collaborative technologies, and a variety of application-focused tools. A driving theme at the Center is developing trust – of products that are generated, of information that is shared, and between people working together on a problem. Complex problem solving depends on trusting the people, products, and systems that interact. The Center trains its students to work effectively in these situations.

Hunt Institute for Global Competitiveness

The institute produces, facilitates, and disseminates research regarding cross-border economic and social development in partnership with government, academia, and the private sector.

Student Success

While building UTEP's reputation as an exceptional research university, we have also remained focused on educating students in our region, many of whom are the first in their families to go to college.

UTEP has developed a research-based student success initiative, known as the UTEP Edge, which implements high-impact practices to promote student success. Ranging from undergraduate research and civic engagement to study abroad and student employment, these experiences increase confidence, enhance personal and professional skills, and equip students with a competitive advantage when they graduate and enter the workforce or pursue graduate degrees. This competitive edge prepares our graduates for leadership and lifelong success, while also increasing persistence to degree completion.

724 The University of Texas at El Paso

In 2021, based on research and an effective pilot program, UTEP expanded and professionalized a wholistic advising model intended to enhance student persistence to degree.

Request for Appropriations

In FY 2022, UTEP's operating budget included \$106.06 million (19.9%) in state general revenue and \$145.89 million (27.3%) in tuition and fees. Sustained state support for higher education is especially important in settings like El Paso, where a majority of students come from low-income households, and increasing tuition and fees is especially difficult.

UTEP understands the budget challenges faced by the state and accordingly requests funding at 100% of the base 2022-2023 funding, with exception for debt service. Serving a low-income student population has taught us to do more with less, because greatly increasing the cost of attendance negatively impacts these students far more than it might in more affluent student bodies. We have worked closely with students to manage tuition and fee increases to assure continued affordability and access to degree programs. With that in mind, and with the fundamental responsibility to serve our region as the catalyst for social and economic mobility, we have carefully streamlined our priorities to ensure we are advancing our core mission objectives surrounding teaching, research and service.

Educational achievement levels in the El Paso region, as well as in Texas and across the nation, remain far below what will be needed to thrive in the 21st century.

Through the development of new funding streams and the implementation of cost control strategies, including highly effective energy conservation initiatives, careful hiring, and technological efficiencies, UTEP has stretched its resources without sacrificing the quality of our academic and research programs. Added financial pressures would likely require consideration of cost containment strategies such as increased class sizes, reduced course offerings, an increased reliance on adjunct faculty and lecturers, decelerated development of online courses and programs, and reductions in student services provided that directly impact student learning and achievement as well as the pace of degree completion.

Our work to better educate our region enhances economic development. State investments in this University and the region it serves are very important elements in continued economic growth.

Exceptional Items

The University is greatly appreciative of the investments the State has made to Higher Education funding and requests the following Exceptional Items:

1. Federal Economic Development Regional Challenge Matching Funds (\$5 Million)

The West Texas Aerospace and Defense Manufacturing Coalition, led by the University of Texas at El Paso, has been named a finalist for a major regional challenge grant from the Economic Development Administration and is competing for a federal award of up to \$100 million. UTEP's proposal, titled "Reclaiming Aerospace and Defense Manufacturing Dominance through Frontier Technologies," aims to build on UTEP's strength in advanced manufacturing and expand small and medium sized manufacturing in the region and create 4,000 engineering and engineering technology jobs and 13,000 technical jobs to support America's aerospace and defense manufacturing capabilities.

724 The University of Texas at El Paso

UTEP seeks a state appropriation of \$5 million for the biennium to match federal funds and strengthen innovation and commercialization of advanced manufacturing technologies in West Texas.

2. Teacher Paid Residency Program (\$2 Million)

The El Paso region, and the state of Texas as a whole, is experiencing significant workforce shortages in teaching. UTEP has sought to address this through the creation of a pilot program established in 2019 which offers UTEP students mentorship with teachers for a full school year and comes with a stipend. The program immerses student teachers for an academic year in a classroom where they co-teach alongside an experienced mentor teacher. Two UTEP College of Education faculty members, based at local campuses, support the student teachers as they transition their knowledge from theory to practice. The program continues beyond the year residency by providing weekly coaching for teachers in their first three years of the profession. The objective of the program is to increase the readiness of teachers and to increase retention of teachers in the profession.

With additional state support of this initiative, UTEP could ensure all new teachers hired in El Paso school districts would be able to participate in this program, so that they are ready to teach on their first day and more likely to be retained by districts. Our objective is that this program be the norm for all UTEP graduates by 2030. The pilot has the potential to attract new high school graduates to the teaching profession and serve as a model statewide.

3. UTEP Center for Hispanic Health Disparities Research (\$6 million)

UTEP seeks to develop the first comprehensive data repository integrating determinants of health (social, behavioral, genetic, environmental, and physiological factors), stress biomarkers, and multi-omic biomarkers of disease as a platform for completing health disparities-related studies in Mexican-origin people.

These funds would be used to build on existing expertise at UTEP to better equip and staff a center for initiating and integrating clinical and translational integrated research initiatives related to Hispanic Health Disparities. This Center would recruit participants, gather data, address multi-level interactions, uncovering novel risk factors, developing models, and submit substantial research proposals for federal funding.

4. Center for Legal Studies (\$2 Million)

With a growing need to understand complex legal system tied to border-specific issues, UTEP is well-poised to serve as a regional and national center for both undergraduate and continuing education to meet an increasing demand for legal professionals in West Texas. The Patti and Paul Yetter Center for Law at UTEP was established in 1998. Twenty years later, more than 650 students have completed the Law School Preparation Institute's (LSPI) summer program and 91% of LSPI graduates who applied to ABA-accredited law schools have been accepted, with more than 450 of those students having matriculated.

5. Pharmacy Program Expansion (\$2 Million)

The Pharmacy Program Expansion item was added during the 2016-17 biennium and then reduced in the 2018-19 biennium. Yet, between 2017 and 2019, UTEP saw a 273% growth in the number of enrolled students, and the need for bilingual pharmacists in the region and beyond remains critical. (Hispanics comprise 18% of the nation's population, but account for less than 5 % of the pharmacist workforce.) The requested funds will ensure the program's continued success and meet essential health care needs.

724 The University of Texas at El Paso

6. U.S. Census Restricted Access Research Data Center (\$500,000)

The U.S. Census Research Data Center would provide a secure facility where approved researchers can analyze otherwise unavailable microdata collected or held by the Census Bureau. Some of this data has public-use files, however management of disclosure risk in the public-use files usually entails top-coding or recoding of variables.

7. Law School Planning Study (\$250,000)

On average, the four largest metropolitan areas in Texas have 2.5 times as many lawyers per capita compared to El Paso. One of the factors that contributes to this shortage of legal representation is the lack of a law school in the El Paso area. The closest law school located 260 miles away in Albuquerque, New Mexico. UTEP seeks authorization and funding to conduct a needs assessment, financial plan and feasibility study for the establishment and operation of a law school at UTEP. Outside consultants who are experienced with the full procedures of both ABA and SACS accreditation would be needed for the feasibility study.

Capital Needs:

While we understand that there may be insufficient funds to provide for Capital Construction Assistance Projects (CCAP), the University would use well any funds that do become available to drive educational attainment, economic development and student success initiatives. Should CCAP legislation and additional exceptional requests be considered, the University is prepared to submit the following requests:

1. Renovation, Repair & Completion of Existing Academic Buildings (\$100M)

Funds for campus improvements will allow the University to continue efforts to modernize and maintain valuable campus facilities to provide a modern-day learning environment in our classrooms and teaching labs. Funds will be used to improve technology infrastructure, fully comply with building life safety codes, install new computing networks, and ensure valuable infrastructure is cost-effectively maintained.

Modernization efforts will principally involve the remodeling and renovation of buildings constructed in the 1940s through the 1970s and largely benefit programs in the Colleges of Science, Engineering, Business, Education and Liberal Arts, as well as general institutional research activities.

2. Student Success Building (\$65M)

This new facility would serve as an easily accessible and unified hub for students who need the services of UTEP's Academic Advising Center, University Career Center, and Counseling and Psychological Services. In addition to space for individual student advising and counseling, the building would feature open space for mentoring sessions, flexible group meeting spaces, and employer relations and professional development.

The University of Texas at El Paso (UTEP) is governed by the Rules and Regulations of the Board of Regents of The University of Texas System and by its Handbook of Operating Procedures. The University is also subject to all applicable federal and state laws and regulations.

Administrator's Statement

10/12/2022 10:34:03AM

88th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

724 The University of Texas at El Paso

Additionally, The University of Texas at El Paso is subject to the minute orders of the Board of Regents and administrative policies and directives issued by appropriate officials of The University of Texas System. Further, certain authority and responsibility for the institution is held by the Texas Higher Education Coordinating Board, as specified by the laws of the State of Texas.

The president of UTEP, Heather Wilson, is the chief administrative officer of The University of Texas at El Paso. Her duties, responsibilities and authority are specified in the Regents' Rules and Regulations, Rule 20201, Part 2, Subsection 4.

Regents' Rules and Regulations, Rule 20202, governs the appointment of other administrative officers.

Criminal Background Checks

It is UTEP policy to obtain criminal history record information on applicants who are under final consideration, following normal screening and selection processes, for a position that is designated as a security sensitive position. Security sensitive positions are restricted to those positions described in Texas Education Code §51.215(c) and Texas Government Code §411.094(a)(2), as those sections may be amended from time to time. The chief administrative officer of the institution, or that officer's designee, will designate which positions or areas are security sensitive. Security sensitive positions designated by UTEP include the following: all executive, administrative, and professional positions, all faculty positions, all classified positions, all part-time positions, and all volunteer positions.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

------	-------------	----------	----------	----------	------------------------	------------------------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Centennial Museum is an academic support and outreach unit of The University of Texas at El Paso focusing on the natural history and the indigenous, colonial, pre-urban and folk cultures of the border region of the southwestern United States and Mexico. It promotes and shares knowledge and understanding of the natural and cultural diversity of the region and its peoples. The Museum meets its responsibilities through the presentation and curation of the permanent collections, and by scholarly research. It also presents programs that promote the more general mission of The University of Texas at El Paso.

------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The West Texas region is woefully underrepresented in law school matriculation and in the Texas bar. We prepare students at UTEP for the rigors of the Law School Admission Test and of law school, and provide those students with comprehensive aid in applying to law school. The Center’s college program is extremely successful and is now emulated by schools and organizations across the nation. The Center’s strategy is one of comprehensive involvement with UTEP and the West Texas community and stimulates interest in the law as a career and serves UTEP and the region in various ways. The Center:

1. Comprehensive and intensive summer college program introducing UTEP students to law, the LSAT and legal writing.
2. Provides UTEP students and returning law students with internship and clerkship opportunities at courts, government offices, and nonprofit organizations
3. Sponsors outreach programs to stimulate interest in law among middle school and high school students and put them on track to college and university education
4. Provides UTEP students with clinical opportunities where they can serve as CASAs for children in the foster care system or moderators and compliance monitors in a juvenile diversion program operated in conjunction with the El Paso County Attorney’s office
5. Sponsors a range of activities in the community, such as a high school moot court competition, Citizen Bee competition, and educational outreach.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Center for Inter-American and Border Studies (CIBS) uniquely contributes to the fulfillment of UTEP’s mission by conducting and promoting research, academic programs and public outreach on themes related to Inter-American and Borders Studies. These distinctive themes include culture and language, the arts, economics, trade, society, history, ecosystems and environment, health and education in the Americas and Border region. The Center is especially dedicated to the pursuit of distinctive goals in these areas through our university structure and partnerships within and across national boundaries.

In all three components, CIBS is especially dedicated to attain innovative knowledge visions of our border and Inter-American region that integrates traditionally separate fields of knowledge and people that work in them, as well as integrating theory and practice to realize UTEP’s vision, mission and goals. CIBS is dedicated to activities that unite the campus, regional, national and international partners in the production and dissemination of knowledge.

------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

This program provides educational opportunities to nurses and other healthcare professionals in rural West Texas. UTEP’s School of Nursing is implementing the next phase of our current program. The original purpose was to bring evidence based nursing practices to rural communities as well as online education to assist nurses in achieving a bachelor’s and master’s degrees in nursing. The next phase involves creating a continuing education section of an online academic course that teaches the basics of evidence based practice that is translating research for practice. This is an essential step for hospitals planning for magnet status.

STRATEGY DESCRIPTION AND JUSTIFICATION:

To continue development of a community-based multidisciplinary educational and research model. This model is implemented in community-based comprehensive care centers in underserved areas. Primary care and health promotion/disease prevention are key in this model. The Border Community Health Education Institute is a community based multidisciplinary health professions education and research partnership, involving UTEP, other academic institutions, and over 23 community bases agencies in El Paso. Multidisciplinary research efforts are directed at educating health professions students (8 College of Health Sciences disciplines) in medically underserved areas.

STRATEGY DESCRIPTION AND JUSTIFICATION:

UTEP is leading a nationally recognized effort to establish a US-Mexico Immigration History Center, dedicated to the research, analysis, documentation, and examination of the critical role that migration along our nation’s Southern border plays in the economic, social, and cultural identity of the border region, the State of Texas, and the nation. The development of the Center will enhance the University’s research capacity in the area of borderlands history, public history and migration studies, and complements the recently established Doctoral Program in Borderland History. The Center will serve the academic community at UTEP and the El Paso region by integrating undergraduate and graduate level coursework into outreach, museum activities, and enhance access to archival and library resources relevant to borderlands and immigration history.

The Core Research Support Fund is established to provide funding to promote increased research capacity at those institutions designated as an emerging research university under the Higher Education Coordinating Board's (THECB) accountability system. Funding is to be expended for the support and maintenance of educational and general activities, including research and student services that promote increased research capacity. A legislatively determined amount of funding is appropriated to eligible institutions as follows: (1) 50 percent based on the average amount of restricted research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB; and (2) 50 percent based on the average amount of total research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB.

------	-------------	----------	----------	----------	---------	---------

The University of Texas at El Paso has been successful during the past ten years in building its biomedical and health research capacity, and has attracted more than \$25 million in federal funding in these areas over the last 5 years. Most of the recent funding has come from competitive programs of the National Institutes of Health. This research has also served as a foundation for doctoral programs in Biosciences, Environmental Science and Engineering, Psychology, Interdisciplinary Health Sciences and Nursing. UTEP’s specific research priority in Health and Biomedical include the areas of infectious disease, environmental toxicology, nutrition, obesity, drug and alcohol abuse, neuroscience, and metabolic disorder, including diabetes. The strategy for use of these funds are directed to support the health and biomedical-related research infrastructure of the campus, such as Animal Laboratory Facilities, Bio-safety Level 3 labs, Bioengineering manufacturing facilities, etc., as well as the associated infrastructure of maintaining compliance with regulations related to research on human and animal subjects and environmental, health, and biosafety. The funds also support health-related projects of the interdisciplinary research enhancement program launched in FY 2012.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Additional staff is needed to manage the increase in administrative and support activities related to biomedical and health science research. These funds will be used to recruit new biomedical health science faculty and staff to support the biomedical and human health research activities.

EXPLANATION OF BIENNIAL CHANGE (includes Rider amounts):

<u>STRATEGY BIENNIAL TOTAL - ALL FUNDS</u>		<u>BIENNIAL</u>	<u>EXPLANATION OF BIENNIAL CHANGE</u>

3.B. Rider Revisions and Additions Request

88th Regular Session, Agency Submission, Version 1

Agency Code: 724	Agency Name: University of Texas at El Paso	Prepared By: Joanne Richardson	Date: October 2022	Request Level: Base
Current Rider Number	Page Number in 2022-23 GAA	Proposed Rider Language		

Rider 3	III-85 to III-86	<p>3. Transfer of Consortium Funds. Funds identified for the Texas Centers for Border Economic and Enterprise Development are to be distributed among the member institutions of the consortium by transfers from appropriations to The University of Texas at El Paso to The University of Texas Rio Grande Valley and Texas A&M International University. Such transfers are subject to the special and general provisions of this Act and are authorized as follows:</p>
---------	------------------	---

	<u>2024</u>	<u>2025</u>	
Texas A&M International University:			
Institute for International Trade	\$87,198	\$87,198	
The University of Texas Rio Grande Valley:			
Border Economic and Enterprise Development	\$144,635	\$144,635	

The University of Texas at El Paso requests updates to the years in the rider. Further, UTEP requests that the State directly appropriate the amounts in the rider to Texas A&M International University and the University of Texas – Rio Grande Valley, thus eliminating the requirement to transfer the funds via interagency contract. The rider would no longer be necessary. UTEP first requested this as a budget structure change for efficiency and transparency after consulting TAMIU and UT-RGV.

3.B. Rider Revisions and Additions Request (continued)

88th Regular Session, Agency Submission, Version 1

Agency Code: 724	Agency Name: University of Texas at El Paso	Prepared By: Joanne Richardson	Date: October 2022	Request Level: Base

DESCRIPTION / JUSTIFICATION:

UTEP seeks a state appropriation of \$5 million for the biennium to match federal funds and strengthen innovation and commercialization of advanced manufacturing technologies in West Texas.

EXTERNAL/INTERNAL FACTORS:

The West Texas Aerospace and Defense Manufacturing Coalition, led by the University of Texas at El Paso, has been named a finalist for a major regional challenge grant from the Economic Development Administration and is competing for an award of \$100 million. UTEP’s proposal, titled “Reclaiming Aerospace and Defense Manufacturing Dominance through Frontier Technologies,” aims to build on UTEP’s strength in advanced manufacturing and create 4,000 engineering and engineering technology jobs and 13,000 technical jobs to support America’s aerospace and defense manufacturing capabilities.

UTEP seeks a state appropriation of \$5 million for the biennium to match federal funds and strengthen innovation and commercialization of advanced manufacturing technologies in West Texas.

DESCRIPTION / JUSTIFICATION:

The objective of the program is to increase the readiness of teachers and to increase retention of teachers in the profession.

EXTERNAL/INTERNAL FACTORS:

The El Paso region, and the state of Texas as a whole, is experiencing significant workforce shortages in teaching. UTEP has sought to address this through the creation of a pilot program established in 2019 which offers UTEP students mentorship with teachers for a full school year and comes with a stipend. The program immerses student teachers for an academic year in a classroom where they co-teach alongside an experienced mentor teacher. Two UTEP College of Education faculty members, based at local campuses, support the student teachers as they transition their knowledge from theory to practice. The program continues beyond the year residency by providing weekly coaching for teachers in their first three years of the profession. The objective of the program is to increase the readiness of teachers and to increase retention of teachers in the profession.

With additional state support of this initiative, UTEP could ensure all new teachers hired in El Paso school districts would be able to participate in this program, so that they are ready to teach on their first day and more likely to be retained by districts. Our objective is that this program be the norm for all UTEP graduates by 2030. The pilot has the potential to attract new high school graduates to the teaching profession and serve as a model statewide.

DESCRIPTION / JUSTIFICATION:

These funds would be used to build on existing expertise at UTEP to better equip and staff a center for initiating and integrating clinical and translational integrated research initiatives related to Hispanic Health Disparities.

EXTERNAL/INTERNAL FACTORS:

UTEP seeks to develop the first comprehensive data repository integrating determinants of health (social, behavioral, genetic, environmental, and physiological factors), stress biomarkers, and multi-omic biomarkers of disease as a platform for completing health disparities-related studies in Mexican-origin people.

These funds would be used to build on existing expertise at UTEP to better equip and staff a center for initiating and integrating clinical and translational integrated research initiatives related to Hispanic Health Disparities. This Center would recruit participants, gather data, address multi-level interactions, uncovering novel risk factors, developing models, and submit substantial research proposals for federal funding.

DESCRIPTION / JUSTIFICATION:

To serve as a regional center for both undergraduate and continuing education to meet an increasing demand for legal professionals in West Texas.

EXTERNAL/INTERNAL FACTORS:

With a growing need to understand complex legal system tied to border-specific issues, UTEP is well-poised to serve as a regional and national center for both undergraduate and continuing education to meet an increasing demand for legal professionals in West Texas.

The Patti and Paul Yetter Center for Law at UTEP was established in 1998. Twenty years later, more than 650 students have completed the Law School Preparation Institute's (LSPI) summer program and 91% of LSPI graduates who applied to ABA-accredited law schools have been accepted, with more than 450 of those students having matriculated.

DESCRIPTION / JUSTIFICATION:

The requested funds will ensure the program's continued success and meet essential health care needs.

EXTERNAL/INTERNAL FACTORS:

The Pharmacy Program Expansion item was added during the 2016-17 biennium and then reduced in the 2018-19 biennium. Yet, between 2017 and 2019, UTEP saw a 273% growth in the number of enrolled students, and the need for bilingual pharmacists in the region and beyond remains critical. (Hispanics comprise 18% of the nation's population, but account for less than 5 % of the pharmacist workforce.) The requested funds will ensure the program's continued success and meet essential health care needs.

DESCRIPTION / JUSTIFICATION:

UTEP seeks authorization to conduct a needs assessment, financial plan and feasibility study for the establishment and operation of a law school at UTEP.

EXTERNAL/INTERNAL FACTORS:

UTEP seeks authorization to conduct a needs assessment, financial plan and feasibility study for the establishment and operation of a law school at UTEP. On average, the four largest metropolitan areas in Texas have 2.5 times as many lawyers per capita compared to El Paso. One of the factors that contributes to this shortage of legal representation is the lack of a law school in the El Paso area. The closest law school located 260 miles away in Albuquerque, New Mexico.

21.1%	Commodities	28.2 %	28.2%	0.0%	\$7,241,125	\$25,686,040	27.6 %	27.6%	0.0%	\$8,176,592	\$29,608,507	
	Total Expenditures		23.5%		\$15,135,918	\$64,423,274		26.2%		\$14,094,115	\$53,811,442	

B. Assessment of Attainment of HUB Procurement Goals

Attainment:

For FY20, UTEP attained an overall 23.49% HUB participation as compared to the State average of 11.74%. For FY21, UTEP attained an overall 26.19% HUB participation as compared to the State average of 10.48%

Applicability:

The "Heavy Construction" category was not applicable to the agency during FY20 and FY21 as the agency did not participate in any heavy construction project.

Factors Affecting Attainment:

In fiscal year 2020 the goal of "Special Trade" was not met due to projects being awarded to non-HUB vendors through official solicitations.

In fiscal years 2020 and 2021 the goals for "Professional Services" were not met due to a small number of projects with limited HUB award opportunities

In fiscal years 2020 and 2021 the goals for "Other Services" were not met due to projects that involved services in which there was little or no HUB competition.

C. Good-Faith Efforts to Increase HUB Participation

Outreach Efforts and Mentor-Protégé Programs:

Identified sub-contracting opportunities & required HUB subcontracting plans (HSP) on solicitations expected to exceed \$100,000.

6.A. Historically Underutilized Business Supporting Schedule
88th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Date: **10/12/2022**
Time: **10:37:27AM**

Agency Code: **724** Agency: **The University of Texas at El Paso**

HUB Program Staffing:

HUB coordinator participates in all pre-proposal and pre-bid conferences to offer guidance on completing HSP forms.

Current and Future Good-Faith Efforts:

Participated in local and state procurement symposiums to encourage more vendor participation in the HUB program and to increase our HUB potential in contracting opportunities.

Hosted HUB vendor fairs to encourage University Faculty and Staff to utilize local HUB vendors .

Use of CMBL directory for solicitation of bids and identify HUB vendors

724 The University of Texas at El Paso

Border Community Health Education Institute

(1) Year Non-Formula Support Item First Funded:	1998
Year Non-Formula Support Item Established:	1997
Original Appropriation:	\$100,000

(2) Mission:

To continue development and implementation of a community-based inter-professional educational and research model. This model is implemented in the medically underserved border community of El Paso, Texas and surrounding area. Primary care and health promotion/disease prevention are key in this model. Driven by The Border Community Health Education Institute, a community based multidisciplinary health professions education and research partnership based at UTEP, activities related to this special item appropriation involve extensive collaboration with a multitude of local community-based health centers and community agencies. Inter-professional research efforts are directed at educating health professions students in six (6) diverse College of Health Sciences degree programs.

(3) (a) Major Accomplishments to Date:

1. Funded 5 pilot research grants involving faculty & community-based research partnership with focus on the following areas: (a) The Art of Living Across the Life Span (b) Environmental Scan of Children Living with Disabilities in El Paso, Texas (c) Understanding Bystanders Attitudes Among College Students in Relation to Sexual and Domestic Violence (d) Immigrants and Refugees in Need and (e) Call to Action- A community Response to Homelessness in El Paso, Texas.
2. Continued support & development of Community Academic Partnership Health Sciences Research (CAPSHR) agenda to address community based & relevant health research to address community needs and support student clinical education sites with CAPSHR involved agencies.
3. Provided STEM career awareness opportunities for 165 students from rural school districts (Presidio, Van Horn, Dell City, and Alpine). Advanced participation in health careers in El Paso area junior high schools
4. Completed the development of an Affiliation Agreement with the Mexican Consul to provide health related educational efforts and academic experiences to CHS students under their Ventanillas de Salud program which resulted in the provision of over 25,000 direct contact services to constituents with approximately \$530,000 of health support services in the areas of mammography, EKG, visual screenings, ear, nose and throat exams, HIV/AIDS testing services, hepatitis screening, and vaccinations.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

724 The University of Texas at El Paso

1. Development of new partnership with El Paso-based Emergence Health Network to address mental health needs of area population; train College of Health Sciences students in Mental Health First Aid to address mental health needs in rural communities with immediate proximity to El Paso area.
2. Establishment of a new Memorandum of Agreement between The University of Texas at El Paso (UTEP) College of Health Sciences (CHS) and University Medical Center (UMC) to advance collaborative educational and related research opportunities in neuroscience; appointment of five (5) Neurologists to UTEP CHS as Affiliate Faculty; long term goal is the establishment of a Center for Excellence in Neuroscience in the medically underserved area of El Paso, Texas.
3. Continued support and expansion of STEM program career awareness opportunities at UTEP College of Health Sciences with emphasis on regional rural school districts' involvement.
4. Continued support of the academic partnerships with community-based entities such as Familias Triunfadoras, Opportunity Center(s) for the Homeless and Ventanillas de Salud programs.
5. Continued support for the development of interdisciplinary health professions educational experiences for College of Health Sciences students
6. Continued support of Project HOPE to address needs of Homeless population in El Paso while providing community-based clinical education experiences to College of Health Sciences students and the general UTEP student population.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

Kellogg Foundation, Tenet Corporation, Columbia HCA

(5) Formula Funding:

N/A

(6) Category:

Public Service

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

\$80,000 Tenet Health & Sierra Providence Network Fiscal Year 2020-2021. We are actively engaged in seeking additional non-general local sources of funding.

(9) Impact of Not Funding:

Collaborative educational and research training opportunities will be severely impacted due to current funding limitations. Students would not be as well prepared to function in the changing health care environment. Regional student recruitment efforts would be terminated. Collaborative community relationships would be severely impacted. Ability to support CHS program needs for student education would be significantly decreased. Inability to establish collaboration with Emergence Health Network to address mental health needs of medically disadvantaged Hispanic population in the El Paso region. While this special line items request has already experienced a reduction from its originally funded level, the College of Health Sciences has remained committed to its full intent of developing multidisciplinary training and collaborative inter-professional educational and related research opportunities for its health professions students aimed at serving the needs of populations with health disparities, including those in rural communities.

724 The University of Texas at El Paso

(10) Non-Formula Support Needed on Permanent Basis/Discontin

Permanent

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

(13) Performance Reviews:

Results are measured through area students enrolling and completing CHS degrees.

724 The University of Texas at El Paso

Border Health Research

(1) Year Non-Formula Support Item First Funded: 2002
Year Non-Formula Support Item Established: 2002
Original Appropriation: \$500,000

(2) Mission:

Utilize interdisciplinary biomedical, health and public health research to seek basic, applied and clinical solutions to health and biomedical related problems of the US-Mexico border region.

(3) (a) Major Accomplishments to Date:

Border Health Research funding is helping the University to continue building its health-related research and doctoral programs. Active programs include activities focusing on cancer, HIV-AIDS, nutrition, asthma, environmental health, drug and substance abuse, neurological disorders, public health and Hispanic Health border issues. New faculty has been recruited who are bringing new federally funded grants, building competitive research programs with special focus on border health issues. These new faculty have prompted UTEP to increase the capacity and quality of its research facilities and administrative infrastructure to support the efforts. Biomedical and Health-related research expenditures now exceed \$20 million per year.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Secure external funding for a broad spectrum of related research activities in the Colleges of Science, Health Sciences, Liberal Arts, Engineering and the School of Nursing, including such targeted areas as environmental health, air quality and its relationship to respiratory diseases; health-informatics, and behavioral issues related to adopting health-conscious lifestyles.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

N/A

(13) Performance Reviews:

This program is evaluated based on the number of proposals submitted and awarded, and the number of scholarly publications.

724 The University of Texas at El Paso

Center for Environmental Resource Management (CERM)

(1) Year Non-Formula Support Item First Funded: 1990
Year Non-Formula Support Item Established: 1990
Original Appropriation: \$100,000

(2) Mission:

CERM provides university-wide leadership and coordination for environmentally related research, education, and outreach activities. The scope of the issues that we address spans from the local community to state, regional, national, and international. Priority areas for CERM include: Environmental Health, Air Quality, Water Quantity and Quality, Desert and Wetland Ecosystems, Desalination Technology, Climate Change, and GIS Applications.

(3) (a) Major Accomplishments to Date:

CERM is making significant progress in understanding water resources sustainability in the Middle Rio Grande Basin under changing climate and competing demands for water. We have developed and tested a suite of models that can simulate future water scenarios at various spatial scales. The region is in danger of using up the freshwater in the shared aquifer within about 50 years. Agricultural intensification (expanding water intensive crops like pecans) and urbanization are accelerating the depletion of the aquifer. We have also made progress in implementing soft path technologies in colonias who lack water access, concentrating on rainwater harvesting and point of use treatment.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

We plan to continue our research on water resources sustainability, focusing on agricultural intensification and urbanization, and to research strategies related to the “One Water” concept. We will also continue to implement soft path technologies in colonias lacking water access.

724 The University of Texas at El Paso

Center for Law and Border Studies

(1) Year Non-Formula Support Item First Funded:	2000
Year Non-Formula Support Item Established:	1998
Original Appropriation:	\$500,000

(2) Mission:

Develop, implement, and refine educational programs, especially a model undergraduate pre-law program, and develop resources for legal research involving students, faculty, and the community in using those resources to benefit the region and provide students at The University of Texas at El Paso (UTEP) with clinical experience in real-world legal situations. The Law School Preparation Institute (LSPI), the operational arm of the Center for Law and Border Studies, pursues the goal of preparing students to compete on their own terms against the broader Texas and national student base in Law School Admission Test performance, writing and critical thinking skills. LSPI students reflect the diverse population of the El Paso region.

(3) (a) Major Accomplishments to Date:

1. Approximately 350 LSPI graduates have matriculated to 90 ABA accredited law schools.
2. Almost 60% of LSPI graduates who went to law school matriculated to top 50 law schools and 33% to the top 15 law schools in the nation.
3. Developed original and groundbreaking programs in research, writing and preparation for the rigors of law school.
4. Developed and maintained internship and clerkship programs connecting UTEP students and law students to judges, agencies, nonprofits and local law firms.
5. Created and maintained a cooperative arrangement with the 65th District Children's Court and CASA of El Paso that allows UTEP students to act as Court Appointed Special Advocates under the supervision of an attorney.
6. In conjunction with the County Attorney, UTEP LSPI students serve in a cooperative program as moderators and compliance monitors for a juvenile diversion program.
7. Instituted a high school summer law camp with the aid of a Law School Admission Council grant that runs across two summers (after high school students' sophomore and junior years) and is designed as a first step to extend the "pipeline" of interest in law to the West Texas community and non-university settings. Nearly 500 high school students have gone through the camp since its inception.
8. Provide law school admissions counseling and access to practice Law School Admission Tests to members of the West Texas community.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Continue efforts to tighten the linkage in the pipeline between middle school and law school.
2. Expand outreach to smaller high schools and communities in West Texas.
3. Expand the high school moot court competition to include high schools and teams from a wider region of West Texas.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

Texas Bar Foundation, 1998. Contributed: \$50,000 startup grant to test the efficacy of what became LSPI.

724 The University of Texas at El Paso

(5) Formula Funding:

N/A

(6) Category:

Instructional Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

Patricia and Paul Yetter Endowment
Personal gift of Mr. Bob Black (Past President of Texas Bar Association)
Shari and Stuart R. Schwartz Excellence Endowment for Law and Border Studies
Philip Townsend Cole Memorial Endowment in Law and Border Studies

(9) Impact of Not Funding:

Discontinue Law School Preparation Institute, internships, and organized and substantial advising resulting in substantial and immediate decline of UTEP students and area residents gaining admission to law school. Reduced exposure of pre-law students to research and writing opportunities. Decreased advocacy for students seeking admission to law schools. Cooperative programs (CASA and Juvenile Justice Center programs), summer college programs, and high school and middle school programs would all cease. Loss of staff key to providing pre-law advising, teaching, networking with law schools and legal community, and managing Center programs. Decentralization of all law-related campus activities, causing student disorientation and unavailability of readily accessible information and advice. End development of legal resource collection in the UTEP Library. Discontinue community outreach and recruitment. Reduction of course offerings in law-related subjects.

724 The University of Texas at El Paso

This program is evaluated on the number of students who pass through our LSPI College Summer Program and our Minor in Legal Reasoning as well as our High School Outreach programs.

In our LSPI College Summer Program, 595 students have gone through the LSPI. 485 LSPI students have applied to law school. Nearly 450 LSPI students have been accepted to over 180 ABA-accredited law schools. 415 LSPI students have matriculated at 97 different ABA-accredited law schools.

From 2008 to 2018, 854 students have minored in Legal Reasoning.

In our High School Outreach programs we have 417 students enrolled in High School Law Camp, 233 in the Moot Court Tournament, and 103 in our Regional Citizen Bee Competition. Our presentations at high schools have seen attendance of 9,694 students.

724 The University of Texas at El Paso

Center for Legal Studies

(1) Year Non-Formula Support Item First Funded: 2024
Year Non-Formula Support Item Established: 2024
Original Appropriation: \$2,000,000

(2) Mission:

To serve as a regional and national center for both undergraduate and continuing education to meet an increasing demand for legal professionals in West Texas.

(3) (a) Major Accomplishments to Date:

The Patti and Paul Yetter Center for Law at UTEP was established in 1998. Twenty years later, more than 650 students have completed the Law School Preparation Institute's (LSPI) summer program and 91% of LSPI graduates who applied to ABA-accredited law schools have been accepted, with more than 450 of those students having matriculated.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

With a growing need to understand complex legal system tied to border-specific issues, UTEP is well-poised to serve as a regional and national center for both undergraduate and continuing education to meet an increasing demand for legal professionals in West Texas.

Collaborative for Academic Excellence

(1) Year Non-Formula Support Item First Funded:	1994
Year Non-Formula Support Item Established:	1991
Original Appropriation:	\$100,000

(2) Mission:

The El Paso Collaborative for Academic Excellence’s mission is the belief that all children, regardless of race or ethnicity or the neighborhood in which they live, are entitled to a first-rate education with effective educators who believe in them.

(3) (a) Major Accomplishments to Date:

More students than ever before, at all grade levels, passed the TAKS math, science, reading, and writing tests. We’ve increased the number of dual credit courses taken. There has been an increase in the proportion of graduates completing the college-preparatory Recommended and Distinguished High School programs; and improved graduation rates, which are the highest among the largest urban districts in Texas. Large numbers of K-12 teachers, administrators, and, ultimately, students have benefited from the work of the El Paso Collaborative for Academic Excellence. The partnership among the University, community college, and school districts has strengthened; the improved preparation of teachers in K-12 has increased the preparation of students enrolling in higher education. This partnership resulted in the development of policies that addressed curricular and course requirements for high school completion and increased the number of students who are fully prepared for college and successfully completed college studies.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The El Paso Collaborative for Academic Excellence will have implemented a new effort to certify more teachers who can teach dual credit courses – which advances students in their college curriculum and saves them money. Additional efforts include the following. First, an environmental scan will be conducted, given new leadership in several ISDs, to best align their priorities with one another and the region’s needs. Second, an effort to better serve the region, key business members will continue to be added to the Collaborative for Academic Excellence with the intent to streamline our efforts and work closer with the business community. Third, a special emphasis will be placed on developing local strategies that facilitate the achievement of the THECB’s 60x30 plan to ensure college completion, marketable skills and community/business involvement.

As programs continue to grow, a strong data-information infrastructure is being created to provide stakeholders and decision-makers with accurate and timely information to assess achievement. The addition of the newly convened Communication Council will help to fortify and amplify the vision and mission of the El Paso Collaborative across Region 19 in service to students.

(5) Formula Funding:

N/A

724 The University of Texas at El Paso

(6) Category:

Public Service

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

N/A

(9) Impact of Not Funding:

Continued coordination among K-16 institutions will be significantly reduced, resulting in increased number of students enrolled in Texas universities requiring non-credit remedial coursework. These limitations may result in fewer students graduating from higher education with higher-level skills required in today's changing workforce, and ultimately negatively impacting the local and statewide economies.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuation:

Permanent

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

N/A

(13) Performance Reviews:

The success of this program is measured by the number of low-income students enrolling in UTEP plus tracking enrollment in remedial courses.

724 The University of Texas at El Paso

El Paso Centennial Museum

(1) Year Non-Formula Support Item First Funded:	1968
Year Non-Formula Support Item Established:	1936
Original Appropriation:	\$100,000

(2) Mission:

The Centennial Museum is an academic support and outreach unit of The University of Texas at El Paso focusing on the natural history and the indigenous, colonial, pre-urban and folk cultures of the border region of the southwestern United States and Mexico. It promotes and shares knowledge and understanding of the natural and cultural diversity of the region and its peoples. The Museum meets its responsibilities through the presentation and curation of the permanent collections, and by scholarly research. It also presents programs that promote the more general mission of The University of Texas at El Paso.

(3) (a) Major Accomplishments to Date:

The Centennial Museum and Chihuahuan Desert Gardens continue to serve close to 20,000 visitors a year, more than half of whom are students from surrounding school districts. Working through partnerships with university departments and community groups, the Centennial has utilized our Special Exhibit space to enhance our programming and outreach. Campus partnerships, including the Biology, History, English, and Art Departments (for example), in addition to collaborations with UTEP's Biodiversity Collection, the W. M. Keck Center for 3D Innovation, and Special Collections, not only enhanced our exhibits and programs, they actively engaged UTEP students in project-based, informal learning experiences. In addition, collaborations with community organizations, such as the Hope Border Institute and former works at the ASARCO smelter, improved our exhibits on children's art in the Tornillo detention camp and The Town and the Smelter (respectively). The museum continues its mission of chronicling the Chihuahuan Desert through its Permanent Exhibits and its Chihuahuan Desert Gardens. FloraFest, the annual fundraiser to benefit the gardens, celebrated its 25th anniversary last year. During COVID, the museum and garden staff is working on translating all of our current and past exhibits online and enhancing our social media presence to reach a wider audience.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Upcoming exhibits in 2020/2021 include: Into the Great White Sands, a photography exhibit featuring our newest National Park and a collaborative jewelry exhibit featuring objects from our collection and pieces created by students in the Department of Art. Our "blockbuster" for the 2022 will be an exhibit focusing on water that will feature the Smithsonian's Water/Ways exhibit.

Now that we have new, updated, compact storage units, we are currently approximately half way through a complete inventory of our permanent collections. Since the Centennial Museum began collecting almost 100 years ago, the list and type of artifacts are vast and eclectic. We hope to finish this process within the next year. As we work on this inventory, we will begin to plan the renovation of the Permanent Exhibits. Exhibit overhauls could cost as high as \$400,000 if all four permanent galleries are renovated. The Centennial Museum will look for grants to fund this renovation project and will also use Endowment funds.

Furthermore, the museum staff will continue to install exhibits, create programs, and continue Florafest and other garden activities.

724 The University of Texas at El Paso

Institute for Manufacturing and Materials Management

(1) Year Non-Formula Support Item First Funded:	1986
Year Non-Formula Support Item Established:	1992
Original Appropriation:	\$500,000

(2) Mission:

To research and promote the use and deployment of current and future emerging systems, engineering methodologies, processes, and tools (MPT) in the design, development, manufacturing, implementation and life cycle management of end-to-end enterprise systems.

(3) (a) Major Accomplishments to Date:

Active integration of students and faculty into Manufacturing Extension services; Formation and support of Industry clusters association to attract, retain, and expand related manufacturing businesses; Development of Teacher Externship program to place area 6-12 teachers into industrial settings; Facilitation and development of industry relevant courses (Professional Engineering & Technical Education-PETE) as part of College of Engineering offerings to industry; Cooperative development of the annual Advanced Manufacturing Conference with partner programs at UTA, UTPA, Texas Tech, UH, Texas A&M Engineering Extension Service, Southwest Research Institute; Statewide conference for small-medium sized Texas industries; Successful outreach to private industry partners; Established several long-term Mentor Protégé projects with LMC Suppliers; Increased offerings of Open Enrollment courses to local manufacturing industry; Smart Manufacturing assessments conducted with several local manufacturing companies; Supported Texas Workforce, Southwest Trade Adjustment initiatives in their mission, and White Sands Missile Range with skills development. Moreover, RIMES engaged in a very successful LMA Mentor Protégé project that was awarded the Nunn Perry Award, lead the Covid-19 response, recovery, and resiliency efforts through active involvement with local PPE manufacturing supply chain; and served 31 total manufacturers in GY05 (July 2019-June 2020)

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Experiential learning in local companies' sites for industrial and manufacturing students.
2. Organize advisory board for Manufacturing Extension Partnership (MEP) grant.
3. Continued pursuit and delivery of Industry and Government sponsored mentor protégé projects.
4. Provide advanced technologies workshops (E3 projects, Smart Manufacturing, Cybersecurity) in collaboration with MEP.
5. Expand collaboration with UTEP Centers with Advanced Manufacturing and Rapid Prototyping expertise.
6. Expand collaboration with El Paso Community College.
7. Expand collaboration with Texas Workforce Commission.
8. Extend collaboration with Southwest Trade Adjustment Assistance Center.
9. Provide hands-on experience to engineering students through Capstone and Sr. Design projects at local manufacturing industries.
10. Provide continued assistance with Covid-19 response, recovery, and resiliency efforts through the CARES act.
11. Achieve expansion of TMAC core capabilities to include Smart Manufacturing, Value Management, and New Product Development expertise.
12. Provide continued efforts in community partnerships with Workforce Solutions Borderplex, Borderplex Alliance, and Bio EPJ.

724 The University of Texas at El Paso

2019 \$420,000 Federal Funds and Private Sources
2020 \$590, 976 Federal Funds and Private Sources

724 The University of Texas at El Paso

(9) Impact of Not Funding:

Texas border manufacturers will lose a technology transfer resource they have come to depend on and trust. Loss of Federal grant funds and industry support and loss of critical economic development infrastructure will reduce that region's ability to retain, expand and attract manufacturers. Loss of coordination and cohesion with local and regional industries to the current manufacturing programs. No comparable program or set of services exist for industry in the 6 counties of far West Texas. Students would have reduced access to mentorship, projects, internships, and applied research opportunities affecting the quality of educational experience and real world problem solving. There will be a lack of support to Workforce development for small and medium manufacturers. UTEP would lose a significant vehicle to transfer methodologies into the private sector. UTEP would also lose an important method to expose engineering students to real-world problems and perspectives. Furthermore, RIMES is an important research partner for TMAC which allows us to investigate and provide state-of-the-art manufacturing solutions to local small and medium enterprises that would otherwise not have access to it.

Institutional Enhancement

(1) Year Non-Formula Support Item First Funded:	2000
Year Non-Formula Support Item Established:	2000
Original Appropriation:	\$2,000,000

(2) Mission:

Funding of this strategy has allowed the University to provide much needed instructional and research support, critical in the development of new programs and student retention. This strategy consists of undergraduate outreach and support programs; Academic Advising; tutoring and counseling programs; operational and technology support for research and academic programs. Continued funding is critical to support the development of new doctoral and masters programs and support the mission of keeping R1 status.

(3) (a) Major Accomplishments to Date:

1. Expanded and improved the academic advising function
2. Provided funding for faculty, equipment and library materials that have allowed the University to significantly increase its doctoral and masters level programs
3. Upgrades of library holdings and technology support
4. Manage a Collaborative Learning Center which provides student employment opportunities while providing much needed tutorial support
5. Created faculty support function to assist in development and assimilation of new technologies into the classroom
6. Provide much needed local support to the Cooperative Pharmacy Program

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Improve retention rates
2. Continue to expand Masters and PhD programs
3. Increased use of technology in the classroom

724 The University of Texas at El Paso

Inter-American and Border Studies Institute

(1) Year Non-Formula Support Item First Funded:	1968
Year Non-Formula Support Item Established:	1964
Original Appropriation:	\$100,000

(2) Mission:

The Center for Inter-American and Border Studies (CIBS) contributes to the fulfillment of UTEP's and the State's missions by conducting and promoting research, academic programs and public programming on themes related to Inter-American and Border Studies. These themes include history, culture, languages, the arts, economics, trade, ecosystems and environment, health and education in the Americas and the border region. The Center is especially dedicated to the accomplishment of these goals through partnerships within and across UTEP, within Texas, in the Paso del Norte region, and across national boundaries.

CIBS is dedicated to establishing innovative visions of the Border and Inter-American region that integrate traditionally separate fields of knowledge and the people that work in them, as well as integrating theory and practice to realize UTEP's intellectual and social mission. CIBS is dedicated to activities that unite the campus and community partners in the production and dissemination of knowledge. CIBS works for well-being of Texas through provision of information and education about the strategic border region.

Based in the College of Liberal Arts, CIBS also engages with the Colleges of Health Sciences, Education, Business, and the Schools of Nursing and Pharmacy, as well as other state funded Centers on the campus. Additionally, CIBS works closely with other Texas universities and universities and research centers in Mexico.

(3) (a) Major Accomplishments to Date:

The Center has accomplishments in three major areas: (1) research, especially collaborative research where CIBS provides the distinctive border component needed to obtain and conduct major projects. A recent, just completed example is a \$4.75 million USDA grant on binational water in the Paso del Norte region, with CERM and CIBS. CIBS is now part of an NSF-funded extension of this project (\$600K+) with Geological Sciences and Computer Science that makes the water knowledge available to all public users. There are currently other funded projects on border crossing and migration, and risks of heat waves. (2) Engagement with local government and community organizations on important public knowledge. In 2018-2019, CIBS (with UTEP Social Work) collaborated with the El Paso Community Foundation on a survey of border attitudes and connections, the first of its kind, that was enthusiastically received by the Cities of El Paso and Ciudad Juarez. Numerous other examples can be listed. (3) Education. CIBS is the home of the undergraduate and graduate Latin American and Border Studies (LABS) programs that prepare students for future careers addressing this strategic region. Very few places in Texas or the whole country provide this sort of education, particularly with an explicit border focus. The LABS MA degree passed its seven-year review in 2018 with flying colors, and excellent student enrollment and graduation.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

724 The University of Texas at El Paso

Building on existing accomplishments, in the next two years CIBS will accomplish:

1. Continue CIBS' outstanding record of external grant funding, involvement in overall grants of \$1 million/year (funding attributed to CIBS of at least \$200,000);
2. Continue CIBS' engagement of faculty across campus: involve at least forty different faculty across at least eight units on campus in CIBS events, such as research visioning meetings and scholarly talks;
3. Continue CIBS' research and educational exchanges with Mexican universities and research centers and Latin American, Mexican American, and Border Studies programs in Texas universities; organize a collaborative alliance among Border, Latin American, and Mexican American centers at UTEP, UT Austin, UT Rio Grande Valley, and UT Arlington (building on first steps in 2018-2019);
4. Provide UTEP border expertise to community leadership and organizations, with particular focus on border crossing and services, environmental issues, migration issues, and human security;
5. Excellence in educational programs, including continuous improvement of the MA program (building on the very positive review in 2018) and a highly subscribed undergraduate minor.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

UTEP general fund budget: \$85,139

(5) Formula Funding:

N/A

(6) Category:

Research Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

FYs 2018-2020

1. External research grants:
 - a. NSF Research Experience for Undergraduates, CIBS \$80,000 (total with NMSU \$469,000)
 - b. PIMSA (binational migration and health agency), CIBS \$12,500
 - c. Participation in \$4.75 million USDA project (UTEP CERM home; 30% CIBS)
 - d. Participation in \$615,451 NSF grant (UTEP Computer Science home, no direct CIBS funding)
 - e. Participation in \$500,000 NSF grant (UT Austin home) (UTEP \$80,000)
 - f. Participation in \$150,000 DHS grant (George Mason home) (UTEP \$53,000)
2. Income from CIBS endowment: \$1,200/year

(9) Impact of Not Funding:

724 The University of Texas at El Paso

Lack of funding for CIBS will limit our ability to meet our vision and mission and therefore compromise our commitment to UTEP strategic goals and important state needs. Funding reductions will result in releasing the teaching staff at CIBS (Visiting Assistant Professor), which in turn, will result in not delivering approximately 250 student credit hours a year (based on current enrollments in LABS and Sociology-Anthropology for that specific instructor), reducing UTEP enrollment and degree completion. Not funding CIBS will cause a measurable step backward in the Texas Higher Education Coordinating Board's "Closing the Gaps" strategic plan due to reduced relevance of courses to border lander and Latina/o students and reduction or closure of the undergraduate and graduate programs. Shifting the Director to additional teaching will result in significant negative impacts on community and research programming and will result in CIBS having greatly reduced ability to deliver expertise on important border and Latin American issues. UTEP in general, and CIBS specifically, is dedicated to useful, valuable, and practical regional ("place-based") expertise; not funding CIBS will deprive the state of Texas, UTEP, and the UT System of this vital expertise.

(13) Performance Reviews:

1. Students: Fall 2018, 15 MA students (grew from 7 in fall 2016). Seven MA degrees fall 2016-spring 2018. Fifteen minors, but this is an undercount; many do not declare until graduation. Nine minors graduated, fall 2016-spring 2018.
 2. Community partners: Five current (Fall 2018), including 12 student interns and four community-based research partnerships. This is an increase from one partnership before fall 2016.
 3. USDA (NIFA) Hargrove, PI, UTEP CERM "Sustainable water resources for irrigated agriculture in a desert river basin facing climate change and urban growth: From characterization to solutions," \$4,756,984, 2015-2020. 30% attributed to CIBS (Heyman, co-PI). Funded & active.
 4. National Science Foundation, Slack, PI (CIBS). "Undergraduate Research in U.S.-Mexico Border Policy and Immigrant Communities," \$80,120, 2017-2020. Notably, this is an NSF Research Experience for Undergraduates SITE grant, which is extremely competitive (three new ones nationally) and fits ideally with the UTEP EDGE, the university's initiative to increase high-impact experiences for students. Two of four grants applied for, were funded.

Law School Planning Study

(1) Year Non-Formula Support Item First Funded:	2024
Year Non-Formula Support Item Established:	2024
Original Appropriation:	\$250,000

(2) Mission:

On average, the four largest metropolitan areas in Texas have 2.5 times as many lawyers per capita compared to El Paso. One of the factors that contributes to this shortage of legal representation is the lack of a law school in the El Paso area. The closest law school located 260 miles away in Albuquerque, New Mexico.

(3) (a) Major Accomplishments to Date:

N/A

(3) (b) Major Accomplishments Expected During the Next 2 Years:

UTEP seeks authorization to conduct a needs assessment, financial plan and feasibility study for the establishment and operation of a law school at UTEP.

Pharmacy Extension

(1) Year Non-Formula Support Item First Funded:	2015
Year Non-Formula Support Item Established:	2015
Original Appropriation:	\$3,500,000

(2) Mission:

The Pharmacy Program Expansion item was added during the 2016-17 biennium and then was reduced in the 2018-19 biennium. The requested funds will restore the funding cuts of the current biennium. These funds will also provide the funding needing during this transitional period as the program enters its second year and full formula funding will not be realized for another 3 to 4 years.

(3) (a) Major Accomplishments to Date:

The University of Texas at El Paso's School of Pharmacy staff and faculty have continued collaborative efforts to implement the PharmD program and expand resources required to support student success. Due to the dedicated and committed team the School of Pharmacy has delivered its third year of curriculum and has successfully begun its fourth and final year of the PharmD program for the first graduating class. The School of Pharmacy has continued executing affiliation agreements to fulfill all designated areas for pharmacy practice experiences. Leveraging long-standing relationships with practice sites due to the over 15 years of experience under the UT-Austin/UTEP Cooperative Pharmacy Program. As of May 2019, the UTEP School of Pharmacy has secured practice sites for UTEP School of Pharmacy experiential education experiences and is expanding rotations at additional facilities.

The UTEP School of Pharmacy is in good standing, and we are expecting a cohort of 55- 65 students. While nationwide the student's application pool has decrease approximately 20%, UTEP's School of Pharmacy has been able to maintain admission rates. Considering the in-state/local applicants, the 19-20 admission cycle has UTEP SOP at 3rd place for most applicants to PharmCAS.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

SOP staff, faculty and leadership teams are dedicated to its mission to be a pioneer in the advancement of pharmacy education through innovation, diversity, engagement, access, and leadership (IDEAL). Faculty and staff are committed to preparing pharmacists who are generalist practitioners, problem-solvers, practice-ready and team-ready.

The expected School of Pharmacy's major accomplishment is to become fully accredited by the Accreditation Counsel for Pharmacy Education during the summer of 2021. As a fully accredited program it will grant us additional scholarship and grant opportunities.

The School of Pharmacy will seek strategic partnerships with our community sites to provide opportunities for our faculty and students. We will work to provide additional scholar experience that will give our students the opportunity to seek a residency to continue their education.

As we graduate our first cohort, the School of Pharmacy is interested in building a solid partnership with our future alumni by building a mentorship program for our current students with the support of our graduates.

SOP will be seeking to create a robust research enterprise that will focus on border healthcare issues and incorporate our pharmacy students to find solutions to support our community.

The School of Pharmacy plans on strategically begin the planning of a PhD program with early planning taking place during the upcoming biennial to submit a compressive proposal that will meet the demands.

724 The University of Texas at El Paso

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

UTEP State appropriation FY 2018- \$ 685,094
UTEP State Appropriation FY 2019- \$ 698,796
La Fe Pharmacy Resident Contract- \$78,168

(5) Formula Funding:

N/A

(6) Category:

Institutional Enhancement

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

The financial resources for the SOP are mainly from the state support, partial designated tuition, and student major fee. Since the UTEP School of Pharmacy was established in 2016 the SOP only holds three endowed accounts and two gift accounts that yearly distributes approximately \$95,000 per fiscal year. During the fiscal year 2020 the school major fee of \$1,100 per academic year per student.

During FY 2019 the SOP Faculty has been able to get grants worth approximately \$1.2M to support their research efforts

(9) Impact of Not Funding:

Not receiving state funding or receiving an extra reduction will directly impact our accreditation, current enrollment plan and future generation of SOP students. SOP will be required to limit the number of students admitted if the required faculty-to-student ratio is not met. Standard 23 of ACPE accreditation standards requires schools to have current and anticipated financial resources to support the stability of the educational program and accomplish its mission, goals, and plans.

The School of Pharmacy has identified targeted priorities including recruitment, advising, tutoring, experiential education, inter-professional education, and co-curricular activities. The SOP intends to hire and retain faculty in areas of strategic importance to leverage strengths and increase inter-professional collaboration, and all of this must be accomplished in an increasingly competitive hiring environment.

(13) Performance Reviews:

The School of Pharmacy has reached out to identify and assemble stakeholders and develop a public dialogue to determine performance measures. The SOP assess the success of the program, the students' campus experience, the quality of the curriculum, and productivity. We use measures to assess intermediate and long-term outcomes of the program's effort, student learning outcomes and student readiness, as well as assess the extent to which the SOP efforts and curriculum align with the stated vision, mission, and goals. As with strategic planning, this is an iterative process focused on continuous improvement of the program's activities and outcomes to best deliver education and research to students and the community. During the application process for fall 2018 there was an interest of over 350 applicants of which 131 were considered for our program and we successfully admitted our second cohort of 57 students. Currently the office of student affairs attends over 30 recruiting events during the fiscal year.

724 The University of Texas at El Paso

Pharmacy Program Expansion

(1) Year Non-Formula Support Item First Funded:	2015
Year Non-Formula Support Item Established:	2015
Original Appropriation:	\$2,000,000

(2) Mission:

The UTEP School of Pharmacy is committed to UTEP’s twin goals of access and excellence through its admissions process, curriculum, clinical experiences, and community engagement. The integration and implementation of the UTEP motto is captured within the proposed program’s vision and mission statement. The UTEP School of Pharmacy vision is to be a pioneer of excellence in pharmacy education for “Innovation, Diversity, Engagement, Access, and Leadership” (IDEAL). Our mission is to bridge borders for access and excellence: transforming pharmacy education, patient care, community service, research and leadership to benefit a 21st century demographic.

(3) (a) Major Accomplishments to Date:

The University of Texas at El Paso’s School of Pharmacy staff and faculty have continued collaborative efforts to implement the PharmD program and expand resources required to support student success. Due to the dedicated and committed team the School of Pharmacy has delivered its third year of curriculum and has successfully begun its fourth and final year of the PharmD program for the first graduating class. 724 The University of Texas at El Paso

Rural Nursing Health Care Services

(1) Year Non-Formula Support Item First Funded: 1978
Year Non-Formula Support Item Established: 1978
Original Appropriation: \$100,000

(2) Mission:

This program provides educational opportunities to nurses and other healthcare professionals in rural West Texas . UTEP’s School of Nursing is implementing the next phase of our current program. The original purpose was to bring evidence based nursing practices to rural communities as well as online education to assist nurses in achieving a bachelor’s and master’s degrees in nursing. We continue to provide online academic courses that teach the basics of evidence based practice that is translating research for practice. These academic courses will help support the hospitals that are obtaining national recognition for excellence in nursing care and outcomes (magnet).

(3) (a) Major Accomplishments to Date:

1. Recruitment of students into the FNP and PNP primary care programs
2. Facilitated rural site visits for clinical rotation and establish affiliate agreements within designated rural areas for FNP and PNP students
3. Disseminated research findings in health education information in rural areas
4. Provided community rural projects sites to undergraduate nursing students

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Continue recruitment of students into the FNP and PNP primary care programs and recruit for Psychiatric NP program
2. Continue to facilitate rural site visits for clinical rotation and establish affiliate agreements within designated rural areas
3. Conduct site and virtual visits to rural areas for recruitment of students to the UTEP School of Nursing

Teacher Paid Residency Program

(1) Year Non-Formula Support Item First Funded:	2024
Year Non-Formula Support Item Established:	2024
Original Appropriation:	\$2,000,000

(2) Mission:

The objective of the program is to increase the readiness of teachers and to increase retention of teachers in the profession.

(3) (a) Major Accomplishments to Date:

so region, and the state of Texas as a whole, is experiencing significant workforce shortages in teaching. UTEP has sought to address this through the creation of a pilot program established in 2019 which offers UTEP students mentorship with teachers for a full school year and comes with a stipend. The program immerses student teachers for an academic year in a classroom where they co-teach alongside an experienced mentor teacher. Two UTEP College of Education faculty members, based at local campuses, support the student teachers as they transition their knowledge from theory to practice. The program continues beyond the year residency by providing weekly coaching for teachers in their first three years of the profession. The objective of the program is to increase the readiness of teachers and to increase retention of teachers in the profession.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

With additional state support of this initiative, UTEP could ensure all new teachers hired in El Paso school districts would be able to participate in this program, so that they are ready to teach on their first day and more likely to be retained by districts. Our objective is that this program be the norm for all UTEP graduates by 2030. The pilot has the potential to attract new high school graduates to the teaching profession and serve as a model statewide.

Texas Centers for Economic and Enterprise Development

(1) Year Non-Formula Support Item First Funded:	1990
Year Non-Formula Support Item Established:	1990
Original Appropriation:	\$1,198,521

(2) Mission:

Enhance the competitive position of southwest Texas and southeast New Mexico through economic impact modeling for local, state, and federal governmental agencies, non-profit entities, and academic institutions, among others. The Institute assesses and analyzes the results from economic impact modeling on potential employment, personal income, and output that can be attributed to a private and or public investment or to new added jobs into an economy for the region, the state, and the nation.

(3) (a) Major Accomplishments to Date:

1. Assisted federal, state, and local governmental entities, as well as private entities, in determining the impact that their investment has and will have in the region, in particular on regional and state employment, output and personal income.
2. Created and distributed reports highlighting the economic conditions of the region and projections of key economic indicators for the region, Texas, and New Mexico.
3. Nationally and locally recognized and awarded for public and private regional economic development work with agencies.
4. Built capacity in state and local government as well as in private entities through post-graduation placement of students in public and private entities as well as in the non-profit sector.
5. Development of databases shared throughout the region and Texas by the majority of government and private sector groups.
6. Provision of research ability across the region and across Texas for the City of El Paso, the County of El Paso, Chambers of Commerce, Regional Economic Development organizations, and other public, private, and academic entities.
7. The Institute is the only one that possesses the economic impact modeling capabilities in the region through REMI and IMPLAN software models. This capability has not only helped local and state entities in their decision making processes but also in the development of professional capabilities for researchers and students.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Continue facilitating economic modeling to private, public, academic, and non-profit organizations in order to improve the conditions of the economy in the region and in Texas..
2. Expand capacity in performing economic modeling projects to engage with City, County, State and Federal level agencies working in projects about the future planning and efficient resource allocation in El Paso, Texas and the state.
3. Increase the research capabilities of the center through the acquisition of economic modeling tools and the hiring of additional, talented staff.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

United States-Mexico Immigration Center

(1) Year Non-Formula Support Item First Funded:	2002
Year Non-Formula Support Item Established:	2002
Original Appropriation:	\$100,000

(2) Mission:

UTEP is leading a nationally recognized effort to establish a US-Mexico Immigration History Center, dedicated to the research, analysis, documentation, and examination of the critical role that migration along our nation’s Southern border plays in the economic, social, and cultural identity of the border region, the State of Texas, and the nation. The development of the Center will enhance the University’s research capacity in borderlands history, public history, and migration studies, and complements the recently established Doctoral Program in Borderland History. The Center will serve the academic community at UTEP and the El Paso region by integrating undergraduate and graduate level coursework into outreach, museum activities, and enhance access to archival and library resources relevant to borderlands and immigration history.

(3) (a) Major Accomplishments to Date:

1. Uncaged Art from Tornillo Detention Center- received national and international attention for exhibiting and contextualizing art by detained youth. A digital exhibit has traveled the country and we are in conversation (pre-COVID 19) with various museums, including the Smithsonian Museum of American History, regarding the exhibit’s future.
2. Smithsonian’s Latino Gallery- consulted with the Smithsonian Latino Center for an upcoming exhibit on Latinos in the United States with a special focus on El Paso and Puerto Rico. They are incorporating oral histories from our collection.
3. “Asylum/Asilo” exhibit at the Tucson Jewish History Museum— collaborated with the TJH by providing oral histories to accompany photographs in their Human Rights Gallery in 2019.
4. “Seeking Refuge” oral history project started collecting interviews with asylum seekers, attorneys, and advocates to document this historic time of migration to the United States.
5. Voices from the Border - On-going video series bringing stories of border residents to the nation. Videos to date have included educators, government officials, veterans, and former Braceros.
6. RIO VISTA BRACERO PROCESSING CENTER PROJECT- Collaboration with the National Trust for Historic Preservation to create historical content and oral history projects to engage the community surrounding the historically significant Rio Vista Bracero Processing Center in Socorro, Texas.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Voices from the Border - On-going video series bringing stories of border residents to the nation. Videos to date have included educators, government officials, veterans, and former Braceros. Will continue to create videos for students and public.

(9) Impact of Not Funding:

UTEP has recently been named an R1 university by Carnegie, the first national research university in the U.S. with a 21st century student demographic. This demographic is more diverse, and the Latino population is growing and having more influence on the economic, political, social, and cultural trajectory of the U.S. Unfortunately, research shows that the Latino educational experience is one of accumulated disadvantage. Without funding for the critical research and dissemination of historical information from IOH initiatives, we will be unable to fully realize the potential of the experiences and perspectives of our Hispanic population and make those available to the public domain worldwide. With the proper resources, we gain research capacity and will grow the program to an international level.

724 The University of Texas at El Paso

The program is both service-based and research-based. As a program that collects oral histories documenting the lives of people on the border as well as important historical events, we offer new historical sources for students, researchers, and community members. We have collected a total of 2,357 oral histories since 1972, of which 1,676 are deposited at Special Collections at the UTEP Library. In the past five years, we have collected 681 oral histories. Oral histories have been downloaded from our searchable database 33,540 times and checked out in person 213 times since 2014. We have created partnerships with the International Coalition of Sites of Conscience (ICSC), the Smithsonian, local schools, and non-profits. We have generated 141 graduate SCH through public and oral history classes since the fall of 2016. We received a travel grant from the ICSC through an Institute of Museum and Library Sciences grant. We have just applied for an NEH Digital Humanities grant for next year. We recently published an intergenerational dialogue model in a toolkit published by the ICSC.
