## Volume VI

September 1958 - August 1959

This volume contains the Material Supporting the Agenda furnished to each member of the Board of Regents prior to the meetings held on September 19-20, October 24-25, and December 11-13, 1958, and March 13-14, April 16-18, June 12-13, July 9, and July 31-August 1, 1959.

The material is divided according to the Standing Committees and the meetings that were held and is submitted on three different colors, namely:

- (1) white paper - for the documentation of all items that were presented before the deadline date
- (2) blue paper - all items submitted to the Executive Session of the Committee of the Whole and distributed only to the Regents, Chancellor, and Chancellor Emeritus
- (3) yellow paper - emergency items distributed at the meeting

Material distributed at the meeting as additional documentation is not included in the bound volume, because sometimes there is an unusual amount and other times maybe some people get copies and some do not get copies. If the Secretary were furnished a copy, then that material goes in the appropriate subject folder.

This volume contains the supporting material for the meetings of September, October, and December of 1958, and March, April, June, July, and August of 1959.

#### DOCUMENTATION

- I. Approval of Minutes March 13-14, 1959. -- A copy of the minutes of the Board of Regents on March 13-14, 1959 has been mailed under separate cover to each Regent. The official notices and other communications connected therewith have been sent. At this time the Secretary of the Board has not been notified of any corrections that should be made.
  
- II. Approval of Travel Dockets. -- The travel docket requests permission to travel. They are prepared by each institutional head and submitted to President Wilson for presentation to the Board. These docket requests are prepared at the latest possible date in order to include all legitimate requests. Under the terms of the rider provisions of the appropriation bill Regental approval of travel by members of the faculty or staff for the purpose of presenting papers at meetings of learned societies is required prior to the actual travel. This explains the necessity of travel docket requests being presented at each meeting. These docket requests will be distributed at the meeting.

- III. Permanent University Fund Bonds, Series 1959. --It is estimated that construction programs presently planned for the Main University and Texas Western College through fiscal 1962 will require the sale of building bonds in the amount of at least \$15,000,000. Of this total, \$4,000,000 will be required to pay construction costs during 1959-60 and that is the minimum size bond issue which should be sold in July, 1959.

The remaining \$11,000,000 of bonds could be sold in July, 1960 and 1961. However, if money market conditions next July permit the reinvestment of bond proceeds in Treasury short-term securities at yields equal to or above the interest cost of the bonds, it would be advantageous to sell the entire \$15,000,000 bond issue at that time. In order to minimize errors in forecasting money market conditions, that decision should be postponed as long as possible, namely until the last of May.

Since no meeting of the Board of Regents is scheduled for May it is recommended that the Executive Committee of the Board be authorized to determine the size of the July bond issue and the date at which the bids for the bond issue will be opened. It is further recommended that the Endowment Officer be authorized to advertise for bids for the bonds and to take bids for printing the bonds and for paying agent fees. The advertising will be released approximately two weeks before opening bids for the bond issue. Very shortly after the bid opening it will be necessary for the Board of Regents to meet for the purpose of adopting the bond resolution and approving sale of the issue to the best bidder. As Texas A. & M. College will also be selling a bond issue at the same time, this meeting might well be held jointly with the A. & M. Board of Directors as was done last July.

At the meeting of the Board of Regents held March 14, 1959 the Endowment Officer was authorized to negotiate an agreement with bond counsel McCall, Parkhurst, Crowe, McCall and Horton of Dallas, Texas, to provide legal service for this bond issue. That negotiation has been completed and it is now recommended that the Chairman of the Board of Regents be authorized to sign an agreement with this firm for such services to be provided at a fee of \$1.00 per bond plus out-of-pocket expenses. This fee is the same as has been paid for legal service in connection with recent bond issues.

It should be pointed out that the State Board of Education has a statutory option to buy this bond issue. If it is not possible to get an advance waiver of this option, the waiver must be obtained at the July 6 meeting of that Board. In that event it will be necessary for the Board of Regents to meet that afternoon or the following day.

THE UNIVERSITY OF TEXAS  
Office of the Comptroller

April 6, 1959

To: The Members of the Board of Regents of The University of Texas

Subject: RECOMMENDATIONS IN REGARD TO MAJOR REPAIR AND REMODELING PROJECTS  
AT THE MEDICAL BRANCH, GALVESTON, TO BE CONSIDERED AT THE MEETING  
OF THE BOARD OF REGENTS IN DALLAS ON APRIL 16, 1959

Mrs. Devall and Gentlemen:

In accordance with instructions from President Wilson, we are submitting to you the recommendations listed below for your consideration at the meeting to be held in Dallas on April 16, 1959, plus a short history of some of the developments in regard to the projects above indicated.

It is recommended that the Board approve the working drawings and specifications prepared by the Associate Architects, George Pierce and Abel B. Pierce, of Houston, and authorize Comptroller Sparenberg to advertise for bids to be submitted to the Board at a later meeting, on the following projects:

Repair and Remodeling of the Building formerly <sup>used</sup> known as the Negro Hospital

Repair and Remodeling of the Building known as the Galveston State Psychopathic Hospital

*(previously referred to as 4 or 5, Out Pat Clinic)*

It is further recommended that the Board approve the preliminary plans on the Repair and Remodeling of the Out-Patient Department Building, prepared by Page, Southerland, and Page, of Austin, Consulting Architects. The Associate Architects, George Pierce and Abel B. Pierce, are already at work on the working drawings and specifications for this project.

All of these plans and specifications are now being given their final check, and it is contemplated before the meeting on April 16, 1959, all the signed approvals required by the Regents' Rules will be in hand, namely, those of the Consulting Architect, the Chairmen of the related Faculty and Staff Committees of the Medical Branch, Dr. Truslow, Comptroller Sparenberg, and President Wilson.

It is hoped to have all three of these projects under contract by August 31, 1959, although the Legislature is being asked to reappropriate for the next biennium the balances of the General Revenue appropriations made for the current biennium for "Major repair and rehabilitation of buildings and facilities". The total amount of money appropriated by The Board of Regents for Repair and Remodeling of the Galveston State Psychopathic Hospital, Negro Hospital, the Out-Patient Department Building, and the Rebecca Sealy Nurses' Residence is \$1,828,822.00.

5

It is not known yet, of course, whether we can give the Medical Branch Staff everything they want on these four projects and still come within the money appropriated; all the architects have been instructed repeatedly, however, to provide plenty of alternates on all projects, so that all four can be completed within the money already appropriated.

The following paragraphs list some of the highlights of the history of these projects:

The 55th Legislature appropriated \$1,228,822.00 for "Major repair and rehabilitation of buildings and facilities", which was itemized as follows:

"Rehabilitation of Galveston State Hospital" (For Year Ending August 31, 1958)	\$481,331.00
"Rehabilitation of the Negro Hospital" (For Year Ending August 31, 1958)	202,276.00
"Rehabilitation of the Out-patient Department Building" (For Year Ending August 31, 1959)	545,215.00

The Appropriation Bill declared that the Legislative intent was that the amounts appropriated be expended as nearly as practicable in the manner shown above. The State Comptroller has agreed that the total amount appropriated for "Major repair and rehabilitation" may be spent as the Board of Regents desires, so long as the projects are related to Medical Branch hospitals. The bill also provided that any unexpended balance in these appropriations as of August 31, 1958 was reappropriated for major repair and rehabilitation during the fiscal year beginning September 1, 1958.

On May 30, 1958 the Board of Regents approved a recommendation by the Medical Affairs Committee that the gift of \$600,000.00 from The Sealy and Smith Foundation for the John Sealy Hospital, to be used on the Remodeling of the Out-Patient Clinic, be accepted. On August 17, 1958, at a joint meeting of the Board of Regents and the Board of Directors of The Sealy and Smith Foundation, it was indicated in a report from the Foundation that this \$600,000.00 "To Rehabilitate the Out-Patient Building at the John Sealy Hospital" would be available at the rate of \$300,000.00 for each of the calendar years 1958 and 1959.

On June 28, 1957 the Board of Regents approved a motion that the Chairman be authorized to execute a contract with James A. Hamilton Associates, Hospital Consultants, of Minneapolis, Minnesota, for consultation services, in connection with the repair and rehabilitation projects at The University of Texas Medical Branch and for the development of a master plan for the Medical Branch, for a fee of \$50,000.00 plus expenses, with \$10,000.00 of this amount to be paid by The Sealy and Smith Foundation and the remainder to come from the Available University Fund. The contract as written was for the total amount of \$56,000.00. Since their contract was executed, James A. Hamilton Associates

have had, of course, considerable correspondence and a number of conferences, both in Galveston and Austin, with members of the Board of Regents, Central Administration, the Medical Branch Staff, and the Consulting Architects, Page, Southerland, and Page, who have put in a considerable amount of time on these projects and who actually prepared the preliminary plans, outline specifications, and preliminary cost estimates. The bulk of the Hamilton formal report was received in three sections, one in March, 1958, and two in May, 1958. Brief, outline "Architectural Programs" for the Negro Hospital and the Galveston State Psychopathic Hospital were also received from James A. Hamilton Associates in May, 1958. An "Architectural Program" for the remodeling of the Out-Patient Building was received from James A. Hamilton Associates December 1, 1958.

Because of the time element involved, the Regents on April 26, 1958 authorized Comptroller Sparenberg to instruct the Consulting Architects, Page, Southerland, and Page, to proceed with the preliminary plans and specifications for the repair and remodeling of the Galveston State Psychopathic Hospital, the Negro Hospital, the Out-Patient Department Building, and the Rebecca Sealy Nurses' Residence, even though the Hamilton Report was not complete at that date.

On May 15, 1958, four separate Faculty and Staff Committees of the Medical Branch, one for each major repair and remodeling project, were appointed by Dr. Truslow and approved by Dr. Wilson, at the request of the Consulting Architect and the Comptroller's Office.

On May 29, 1958, the Board of Regents spent the entire day discussing with Mr. James A. Hamilton, et al, physical plant needs of the Medical Branch, with particular emphasis on the four major repair and remodeling projects previously listed and a proposed Campus Development Plan.

On May 30, 1958, the Board of Regents approved the appointment of George Pierce and Abel B. Pierce, Houston, Texas, as Associate Architect on the Repair and Remodeling of the Galveston State Psychopathic Hospital, the Negro Hospital, the Out-Patient Clinic, and the Rebecca Sealy Nurses' Residence.

On June 21, 1958, the Board appointed a committee consisting of President Wilson, Vice President Dolley, Executive Director Truslow, and Comptroller Sparenberg, to approve the preliminary plans on the four major repair and remodeling projects at the Medical Branch. This special committee approved the preliminary plans for the repair and remodeling of the Negro Hospital and the repair and remodeling of the Galveston State Psychopathic Hospital, as prepared by Page, Southerland, and Page, Consulting Architects, on July 18, 1958. The preliminary cost estimates on these two projects submitted by Page, Southerland, and Page, with the preliminary plans, at that time totaled \$958,110.00, \$625,115.00 for the Galveston State Psychopathic Hospital and \$332,995.00 for the Negro Hospital. The action of the special committee in approving the preliminary plans for the Galveston State Psychopathic Hospital and the Negro Hospital was later ratified by the Board of Regents.

The Hamilton Report and the "immediate" and "long-term" plot plans relating thereto, prepared by Page, Southerland, and Page, Consulting Architects, have been discussed at various times by members of the Board of Regents, the Central Administration Staff, and the Medical Branch Staff, with the Directors of The Sealy and Smith Foundation, the Texas Commission on Higher Education, the Legislative Budget Board, et al.

- V. Small Class Report. -- The small class reports are presented in accordance with Article V, Section 6, of the Appropriation Bill, to-wit:

Section 6. Class Sizes. The general academic teaching institutions of this State shall offer only such courses and teach such classes as are economically justified in the considered judgment of the appropriate governing board.

Whenever any undergraduate class falls below an initial enrollment (as of the 12th class day of each semester of the long session and the 4th class day of each term of the summer session) of ten (10) students by head count and any graduate class falls below an initial enrollment of five (5) students by head count, such fact shall be reported by the president to the appropriate governing board of such institution. If the governing board considers such class size to be necessary and justifiable, the class may be continued; if the governing board considers such class to be unnecessary and unjustifiable, the class shall be combined with another class of like subject matter or such other action taken as the governing board may approve.

A list of all such classes below the above stated minima which are approved by the governing board shall be reported by the general academic teaching institution to the Texas Commission on Higher Education. Reports on enrollment and class sizes shall distinguish between undergraduate and graduate classes and between organized classes and individual instruction type courses.

- A. Main University. -- The small class report for the Main University, second semester of the 1958-59 long session, is on Pages 9-18.
- B. Texas Western College. -- The small class report for Texas Western College, second semester of the 1958-59 long session, has not yet been reported. Therefore, it will be distributed at the meeting.

## JUSTIFICATION CODE USED IN PREPARING SMALL CLASS REPORT

Spring Semester 1958-59

- ✓1. Required course for graduation in one or more baccalaureate degree programs. The course is not offered each semester or term, and if cancelled, may affect date of graduation of those enrolled.
- ✓2. Required course for graduating seniors in one or more degree programs
- ✓3. Required course for majors in this field and should be completed this semester (or term) to keep proper sequence in courses.
- ✓4. Course for which students pay a supplementary fee, and the usual requirements of class size are not considered applicable. (Example: Class Instruction in Applied Music or Applied Art.)
- ✓5. Limited laboratory facilities make it necessary to establish an additional section of this course.
- ✓6. ✓a. Course in a small department which offers the minimum number of courses consistent with the maintenance of a balanced departmental program.  
      ✓b. Courses in a large department necessary to maintain a well-balanced departmental program.
- ✓7. Graduate course that is required for completion of an advanced degree.
- ✓8. ✓a. Interdepartmental course meeting with same course in another department.  
      ✓b. Intradepartmental course meeting with another course in same department.
- ✓9. Others:  
      Adds, drops, and transfers in transit between departments and the Registrar's Office as of the twelfth class day.

- VI. Approval of Summer School Budgets. --Under date of April 8, 1959, President Wilson mailed to you for your study the summer school budgets for the Main University and the Texas Western College. These budgets are also in this bound volume for a ready reference if needed during the meeting of the Board.

Quoting from President Wilson's letter, "Summer Session salaries are figured on a fraction of the Long Session Salary (one-fourth for Main University nine-weeks session, with a ceiling of \$2,250 for teaching personnel, and one-sixth for each six-weeks term for Texas Western). The total for the Main University budget falls within the amount already approved by you for the Summer Session. Because of the recent teaching rate increase approved for Texas Western College, an additional \$17,000 has been transferred from the Unallocated Salaries account to write the Summer Session budget. This transfer does not increase the total operating level for Texas Western for 1958-59." The \$17,000 transfer will be reported in the next docket for Main University.

## PROSPECTUS

### BOARD OF REGENTS MEETING

APRIL 17-18, 1959

The purpose of this meeting is to see whether the Report of the Committee of 75, or portions thereof, shall be translated into Regental goals and policies for The University of Texas System.

The Regents have received, accepted for study, and disseminated for widespread popular information the Report itself. However, it is still an external document.

After this meeting, the Report will have become, to whatever extent decided upon, an internal document, an integral part of Regental plans and policies for The University of Texas. This result will be achieved by the actions taken.

What actions? Actions will have three effects:

1. They will define the elements of a platform (or charter) for development of The University of Texas System.

As portions of the Committee of 75 Report are adopted, they become the basis for another document -- this one to be used widely in promoting study of The University throughout Texas and in "merchandising" such things as private fund development. The actual document will be subject to Regents' approval later.

2. They will set targets.

These will be commitments, used over and over again as points of reference for Regents, administration, faculty, etc.

3. They will define implementing policies and actions.

Some will be immediate, some long-range.

The plan for actions. The agenda call for three half-day sessions. The first session deals with commitments -- the planks in a platform. The ones recommended are those which the Committee of 75 presented as fundamental. The Regents may adopt, modify, add others. The pertinent questions are always, "Do we understand and believe in what we are adopting? Do we want our administration and others to work hard toward discharging these commitments? Are we ready to accept the scale of priorities implied?"

The second session deals with concrete policies -- lines of action -- designed to move toward discharging the commitments made. Proposals based upon Committee of 75 conclusions will be laid before the Regents

- 2 -

by the Administration. In this session, policies of system-wide application will be considered.

The third session deals with policies which have unique application to each component unit in turn. In effect, they are deemed to be applications of what the Committee of 75 has recommended.

Only a beginning can be made in these sessions toward a complete strategy of action. More studies must be completed, more plans must be refined to the action stage. The latter part of the third session, therefore, will be devoted to consideration of these items.

Documents to be used. Regents have been supplied with some background informational material on University operations. This should help in understanding some of the recommendations to be made.

Each Regent has been furnished with a copy of the Report of the Committee of 75. This document can be, and we hope will be, studied closely prior to the meeting. The Discussion Documents (see next paragraph) will make frequent specific references to the Report.

Sessions themselves will revolve around four Discussion Documents prepared by the Administration. They are:

- I. Commitments.
- II. System-Wide Policies
- III. Component Unit Policies
- IV. Strategy Controls

No. I is attached. It will be used Friday morning. Nos. II-IV will be delivered to Regents at the meeting, earlier if possible.

BOARD OF REGENTS  
MEETING APRIL 17-18

DISCUSSION DOCUMENT I

I. COMMITMENTS

1. This Board of Regents accepts as its own the mission of The University stated on pp. 1-3 of the Report.

- Approved*
- Donnell J. Kent*
- 1.1 Small-print illustrations in Col. 2, p. 2, are matters of educational policy, to be treated in specific recommendations of the administration in Session 2. Suggest that discussion of them be postponed until then.
  - 1.2 Practically every sentence of pp. 2-3 was chosen by Committee of 75 in preference to alternative statements with different meanings. Careful reading is urged.
  - 1.3 However, the sense of the "Mission" statement is made clearer in subsequent Commitment items and discussion may be limited at this point.
  - 1.4 Acceptance of Commitment 1 means that Mission statement as modified goes into your own platform document.

2. This Board of Regents agrees that the present attainments of The University, while commendable, do not yet constitute achievement of first class status.

- Approved*
- Madden*
- 20*
- in general outstanding in its region*
- the quality to rank it among the great universities of the country*
- 2.1 This statement does not constitute endorsement of the Committee's quality rankings for any division or any program. It does, in effect, agree with the over-all conclusion stated on p. 8, Section D, first two paragraphs of the Report.
  - 2.2 Little profit can come from reviewing the committee's quality rankings, many of which are necessarily out-of-date now. Their chief point is simply that many present operations are not sufficient to accomplish the Mission recommended.
  - 2.3 In the document distributed under Board of Regents auspices, care would be taken to show both the good and the less-than-good -- necessitating some rewriting or editorializing in regard to status findings such as those appearing in Chapters II and III of the Report.

3. The Board of Regents commits itself -- and hence its administrative staff -- to give top priority to achieving the goals set forth in the Mission statement.

*Approved*

*20*

*Madden*

3.1 Intent here is to find out whether the Mission statement is to be considered merely as a pious statement of good intentions, or as a working philosophy which guides decisions, affects budgets, demands public relations activity, etc.

4. Agreeing that the crucial issue confronting The University is the one of improving its quality of performance, the Regents commit themselves to seek, and demand, quality of high order.

*Approved*  
*Franklin*  
*Wright*

- 4.1 Emphasis is to be upon performance, rather than merely upon the conditions (e. g. salary levels) supposed to produce quality.
- 4.2 Quality performance levels to be sought are those of the nation's best universities.
- 4.3 Quality classroom performance is to be measured in terms of the abilities of students who are admitted; undergraduate enrollment is to be open to students of ordinary ability. The point is that absolute performance levels are not to be raised simply by restricting enrollment to those of upper 25 per cent ~~academic abilities~~. However, expectations are that every student will work nearer to his capacity. (See Report, p. 19, Col. 2 and p. 20, Col. 1; p. 2, Col. 1, 2nd Paragraph under "B".)
- 4.4 Tacitly implied, however, is constant upward climb in the normal expectations for administrative performance, faculty performance, and student performance.

*to those of upper 25 per cent*

*Approved*

5. Student enrollments in The University System are to expand in size in keeping with the increased demands for higher education, within the limits of available faculty and financial resources.

*Approved*  
*Wright*  
*Wright*  
*Wright*

*with the present*

- 5.1 Exception: No expansion of student enrollment in ~~the~~ medical unit is envisioned.
- 5.2 Main point here is that Main University and Texas Western are to grow in size as indicated (Report p. 13, Col. 1; p. 41, Col. 1). Any artificial restrictions upon enrollment are to be temporary measures.
- 5.3 This statement implies endorsement of Committee's recommendation regarding Law School size (Report, p. 31, Col. 2). If Regents want to leave in abeyance pending further study, please so indicate.
- 5.4 The administration recommends that a statement on the size for medical school enrollments at The Medical Branch be held in abeyance for the present.

*of the Medical Branch*

*Approved*

- 5 -

6. In regard to scope of offerings, the Regents accept the principle stated in the Report, p. 13, Col. 2, "In order to achieve outstanding excellence and to render maximum service, The University should seek to perform its mission without unnecessarily enlarging the number of its offerings."

- 6.1 This is a principle of conservatism in inaugurating new courses and new curricula; it also frowns upon present over-proliferation of specialties.
- 6.2 However, please read and adopt or reject the "safety valve" appearing in the final paragraph of p. 14, Col. 1, and the center paragraph ("at the same time...") on p. 15, Col. 1.

7. The undergraduate program at The Main University should be brought to a substantially higher quality level as rapidly as possible.

- 7.1 Although presumably covered by Commitment 1, this matter is singled out for attention because a formula approach to Legislative appropriations -- as well as considerable public sentiment -- is that all state-supported undergraduate programs should be of same quality. The Committee of 75 considered this point of view and rejected it, saying instead that the undergraduate program at The Main University should be of outstanding quality. If the Regents adopt this commitment it will mean, inevitably, that Available Fund and private gift money will have to be plowed into the undergraduate program.

8. The University of Texas is to become one of the nation's top centers for high-level graduate study (p. 14, Col. 2).

- 8.1 As stated, this affects and sets goals for graduate programs at the Medical Units as well as The Main University.
- 8.2 If taken seriously, this is a new goal for The University. From an "also-ran" position, graduate study is to be raised to real distinction. This will take time and effort as well as money. A university cannot go into the market and purchase a graduate program. It is hoped that implications of such a commitment can be discussed considerably before a decision is made.

- 6 -

9. A vigorous, high-quality program of research is to be developed to the point of genuine eminence.

- 9.1 Very definitely, this calls for much more -- and much more significant -- involvement in research endeavors than has been characteristic of The University in the past.
- 9.2 However, it contemplates concentration of resources upon selected fields, in contrast with widespread proliferation of mundane inquiries. This will be a very difficult matter to work out.
- 9.3 Such commitment involves big money -- for buildings, for equipment, for faculty time, for research assistants, etc. (See Report, pp. 15-16.)

10. To implement the commitments so far made, the most important single goal for The University of Texas in the years ahead is to build a truly eminent and distinguished faculty. (Report, pp. 17-19)\*

- 10.1 Most important is underlined to indicate a commitment to priorities.
- 10.2 A series of policy recommendations to give tangible expression to this commitment will be laid before you in the second session.

11. In all teaching units, we commit ourselves to the goal of securing truly excellent classroom and individualized teaching.

- 11.1 This commitment pulls out for special attention the matter of sheer teaching performance. Adoption will constitute a mandate to faculty and administration to take unusual steps, to go beyond the typical university attention to the actual teaching function. Committee of 75 discussions frequently reflected fear that research and high scholarly emphases would crowd teaching into second-class citizenship status. Student communications to the Committee of 75 dealt with this problem more than any other.

12. Adequate physical facilities, especially library collections and research equipment, are to be provided, but with maximum economy consonant with facilitating The University's educational and research mission.

- 7 -

12.1 Here is a fundamental policy area of utmost importance, but a policy it is difficult to put into words.

*reasonably necessary* possible will be done from Available Fund resources; that the building itself will be simpler and less costly; that equipment purchases will increase sharply; that highly specialized and lush space will be kept to a minimum. All this is for one purpose, to put as much money as possible into program.

At the same time, the policy should include the notion of vigorous effort to enlist private funds for physical facilities that are not life-or-death matters -- an outstanding Drama theater, for example, or a really nice International Student Center, or a \$25 per square foot Women's Gymnasium rather than a \$15 one.

12.2 Of course, the catch in the statement is the practical meaning of "consonant with facilitating." Every proponent of a building or space addition will be quite sure that his project is absolutely essential for a university of the first class.

13. To finance the achievement of the mission stated, the first commitment of the Board of Regents is to expend with the utmost prudence and economy the funds put at its disposal.

14. The second commitment is to seek vigorously the sharp increases in revenue absolutely necessary to an excellence-seeking operation,

14.1 through presenting the claim of The University's component units for basic support from General Revenue appropriations in keeping with its status and assigned functions in the state-supported system of higher education;

14.2 through husbanding the Permanent Fund and the Available Fund to provide exclusively for (a) meeting essential building needs and (b) moving toward excellence from the quality levels made possible by basic support from the General Revenue;

14.3 through dignified but vigorous action seeking to attract large amounts of private support for The University's mission of excellence.

("Large" means in the next 10 years roughly \$50 million in new capital funds and \$5 million more each year in gifts for current operations.

~~See Schedule A attached.~~ It demonstrates rather conclusively that this particular commitment holds the key to eminence.)

SCHEDULE A

TEN-YEAR FINANCIAL OUTLAY  
REQUIREMENTS FOR THE UNIVERSITY  
SYSTEM TO REACH NEAR EXCELLENCE

Projections are in 1958 dollars; inflation not calculated. Size projections according to Committee of 75 policies. Third medical school not included.

1. For current operating budgets	\$	630,000,000	
Less "Basic Support" proportional to 1958-59 General Revenue requests plus student fees, etc.	\$	540,000,000	
2. Net demand for supplementation of current operation	\$	<u>90,000,000</u>	
3. "Necessary" capital outlay for equipment and buildings	\$	75,800,000	(1)
4. Total for essential excellence supplementation		<u>165,800,000</u>	
5. Less:			
(a) Projected Federal capital outlay grants	\$	8,300,000	
(b) Portion of capital outlay met by unretired 20-year serial bonds (2)		<u>26,000,000</u>	
			<u>34,300,000</u>
6. Net <u>cash</u> for essential supplementation	\$	131,500,000	
7. Less, estimated net Available Fund receipts	\$	67,000,000	
8. Current operation and capital outlay private funds needed for <u>essential</u> supplementation	\$	64,500,000	
9. "Desirable" capital outlay additions (3)	\$	42,000,000	
TOTAL	\$	<u>106,500,000</u>	

*Excellence*  
*to fund money*  
*where U-2-X*

*is this based on current or budget's*  
*Conservative*

*Like current endowment*  
*Large Auditorium*

(1) Includes interest on 20-year serial bonds issued for portion of capital outlay. Omits buildings from revenue bonds (e. g. dormitories).  
(2) Basis: \$21 million of capital outlay assumed to be from current Available Fund receipts, \$44 million from 20-year serial bonds, of which \$26 million plus interest would be outstanding at end of decade.  
(3) Samples: Main University Auditorium \$5,000,000; endowment of medical publications, \$1,000,000; foreign student scholarship endowment at Texas Western, \$2,000,000; addition to Texas Memorial Museum, \$1,000,000; endowment at John Sealy Hospital operations, \$25,000,000; Medical Continuation Center at Southwestern, \$1,000,000.

15. <sup>Continuing</sup> In starting the climb to excellence, we are committed to a strategy of selective approach (Report, pp. 29-30).

15.1 This is a key recommendation of the Committee of 75. Action on this recommendation is essential for guidance of your administration.

16. Agreeing with the Committee of 75 that The University of Texas System has a major obligation to share its resources of knowledge and manpower with the citizens of the state, we are committed to <sup>maintain</sup> ~~development~~ of strong, high-quality programs of public service and continuation education of university grade.

16.1 Endorsement of criteria appearing on p. 2, Col. 2, last column, and p. 34, Col. 2, of the Report are implied in this Commitment.

17. Finally, we commit our best efforts toward cultivating widespread popular understanding of, widely-shared proprietorship in, and intelligent public support for the mission of The University of Texas.

17.1 This is a fancy way of saying that the Regents are going to urge and back their administration in concrete efforts to get 75,000 or more Texans to feel about their University as the 75 members of the Committee of 75 now feel.

17.2 It says also that the development of climate, convictions and cash is to be a deliberate and important part of The University's future program.

18. Others?

The Clean-Up. At the end of the second session it is hoped that you can indicate your approval or reservations concerning all the Report's presentations. This is for the guidance of the administration in preparing a document for your approval and circulation.

The administration's recommendations are that you approve for general circulation all portions of the Report except:

pp. 8-9, Section D, Col. 2, paragraphs beginning "The foregoing appraisals . . ." through top paragraph of p. 9, Col. 1.

- 10 -

pp. 30-40, each section headed "Present Status" for each of the divisions named.

p. 43, Col. 1, paragraph beginning "At the present time..." delete "far" before "short". This deletion was actually made by the Committee of 75 but an editorial error allowed it to stay in.

The purpose of the foregoing recommendations is not to suppress part of the Committee's findings. We recommend that the present supply of copies of the Report be made freely available upon request. However, by the time any subsequent document can be prepared nearly three years will have elapsed since the Committee made its appraisal; many changes have occurred and will be occurring. Also, we doubt the wisdom of emphasizing current status too much in specific application to individual divisions. Too much attention centers on the rankings rather than the goals.

In fact, in drafting the next document we'd like to try eliminating reference to specific divisions within The Main University. To mention one somewhat damns as unimportant another not mentioned.

The "Clean-Up" operation is forecast at this point in order that individual Regents may flag in advance of the meeting any particular sentences or paragraphs they would like to question.

Document II will deal with implementing policies and actions.

PIPE LINE EASEMENT NO. 1347 TO EL PASO NATURAL GAS COMPANY.--El Paso Natural Gas Company requests an easement for an 8-5/8 - inch pipe line with total length of 3,716.049 rods across Sections 20, 21, 22, 23, 24, 29 and 30, Block 9, and Sections 25, 26, 27, 31, 32, 33 and 34, Block 10, University Lands, Andrews County, Texas for the period April 1, 1959 through March 31, 1969. Check for \$3,716.05, at the standard rate of \$1.00 per rod, has been delivered to the University in payment of rental for the 10-year term. El Paso Natural Gas Company reports that completion of this line will be later than the effective date of a gas purchase contract under which the line is to be built if the Board of Regents cannot give approval until its June meeting. At least a good portion of the gas to be purchased comes from University Lands. Therefore, it is recommended that the Board of Regents approve this easement and authorize execution of the instrument on the standard University form by the Chairman of the Board of Regents upon approval as to form by the Land and Trust Attorney and approval as to content by the Endowment Officer

33. Dr. Morris Ziff, Professor of Internal Medicine, to Atlantic City, New Jersey, on April 29-May 7, 1959, to attend meetings of the American Society for Clinical Investigation, the American Federation for Clinical Research, and the General Study Section of the National Institutes of Health; expenses for May 2-7 to be paid from United States Public Health Service Grant A-2071(C1).

REASSIGNMENT OF DUTIES IN EXCESS OF TWO WEEKS: I recommend that Dr. Chester Fink, Instructor in Pediatrics, be assigned to specialized training in endocrinology available in the laboratories of Dr. Lyatt I. Gardner at the State University of New York, Upstate Medical Center, Syracuse, New York, from May 10 to July 31, 1959. His transportation costs and \$3.00 per diem will be paid from Southwestern Medical Foundation Travel Fund.

Respectfully submitted,

A. J. Gill, M.D.
