COMMITTEE MEETING MINUTES

OF THE BOARD OF REGENTS

OF

THE UNIVERSITY OF TEXAS SYSTEM

July 10, 2013

Austin, Texas

Minutes of Committee meetings are taken as a convenience for research purposes and may be verified by recordings kept in the Office of the Board of Regents or webcasts available online on the Board website.

/s/ Carol A. Felkel Secretary to the Board of Regents August 27, 2013

MINUTES U. T. System Board of Regents Academic Affairs Committee July 10, 2013

The members of the Academic Affairs Committee of the Board of Regents of The University of Texas System convened at 2:06 p.m. on Wednesday, July 10, 2013, in the Board Meeting Room on the 9th Floor of Ashbel Smith Hall, The University of Texas System, 201 West Seventh Street, Austin, Texas, with the following participation:

Attendance

Vice Chairman Hicks, presiding
Vice Chairman Foster
Regent Hall
Regent Pejovich
Regent Stillwell

Also present were Chairman Powell, Regent Aliseda, Regent Cranberg, Regent Horne, and General Counsel Frederick.

In accordance with a notice being duly posted with the Secretary of State and there being a quorum present, Committee Chairman Hicks called the meeting to order.

1. <u>U. T. Dallas: Progress on implementation of the Framework for Advancing Excellence throughout The University of Texas System</u>

Committee Meeting Information

Presenter(s): President David E. Daniel, U. T. Dallas

Status: Reported/Discussed

Follow-up actions: Dr. Daniel will provide

- a more ambitious four-year graduation rate for 2017
- specific numbers on job placement rates for graduates
- a breakdown of where National Merit Scholars are coming from (in-state/out-of-state)

Discussion at meeting:

At the conclusion of his presentation, President Daniel said that academic space is his number one problem. He expressed hope that the Tuition Revenue Bonds would be made available.

Regent Pejovich commented on the good trend of the one-year retention rate, and noted progress on the four-year graduation rate. She asked what can be done to move the 2017 goal of 55% closer to the six-year graduation rate, and Dr. Daniel said he will reevaluate that number and think about a more ambitious goal. In reply to a question from

Regent Pejovich about job placement rates for U. T. Dallas graduates, President Daniel noted the economic downturn did not affect that, perhaps because the majors are in high demand, and the placement rate is close to 100%. He will get specific numbers to her.

Regent Pejovich also commented that she has heard from undergraduate students about the impressive amount of hands-on research and one-on-one time with faculty, and she asked how Dr. Daniel will maintain, and even accelerate, the types of programs that attract good students as the institution grows. Dr. Daniel spoke about ways to maintain that important culture, such as assuring funding for these programs and requiring undergraduate research in some curricula.

She also congratulated Dr. Daniel on the progress of the capital campaign, and she spoke about graduates who are fully energized.

In response to a question from Chancellor Cigarroa about the growth in National Merit Scholars, Dr. Daniel said most of the students (roughly 75%) are from in-state, and he will get the breakdown to the Chancellor. He provided reasons for the attraction to U. T. Dallas, including the Tier One initiative launched by the state several years ago that helped provide national visibility, the creation and expansion of degree programs, and new buildings and the philanthropy of Mrs. Margaret McDermott that have transformed the landscape. He also commented on recruitment of STARs (Science and Technology Acquisition and Retention) faculty.

2. <u>U. T. System: Presentation by MyEdu on connections with employers to U. T. System students</u>

Committee Meeting Information

Presenter(s): Mr. Michael Crosno, CEO and Chairman, MyEdu Corporation; Mr. Deepak Surana,

General Manager/Careers, MyEdu Corporation

Status: Reported/Discussed

Discussion at meeting:

The MyEdu PowerPoint presentation is set forth on the following pages. Mr. Crosno answered questions from Regent Horne and Chancellor Cigarroa about connecting more students with more employers, including employers who are alumni.

In response to questions from Regent Hall, Mr. Crosno spoke about the features of the marketplace. The talent search is a powerful dashboard that allows employers to search profiles based on skills as compared to LinkedIn that is largely experience-based. The database can require employers registered in the system to provide data to measure successful hires, and Mr. Surana added that MyEdu follows up directly with employers about their hires.

ADJOURNMENT

Committee Chairman Hicks adjourned the meeting at 2:57 p.m.
