U.T. BOARD OF REGENTS' MEETING

OCTOBER 10-11, 1985

1985-86 HOLIDAY SCHEDULE AND VACATION ALLOWANCE

The Appropriations Bill for fiscal year 1985-86 provides for 13 of the 14 holidays specified in Article 4591, Vernon's Texas Civil Statutes, as amended. The Appropriations Bill does not provide for the observance of Columbus Day and any day on which an election is held throughout the state (General Election Day). Therefore, in fiscal year 1985-86, the resulting total is thirteen (13) days.

The Appropriations Bill also provides for an additional three (3) days of special leave time specifying the day following Thanksgiving and the day before and after Christmas. It further appears that Section 8(b) provides that "the administrative head" may, at his or her discretion, give an employee a day of leave on the third Monday in January in observance of Martin Luther King, Jr.'s birthday. This day is in lieu of one of the preceding special leave days. It has been the practice of The University of Texas System to close all offices, and operations where possible, on the special leave days and not require a skeleton workforce to carry out official business. Therefore, vacation leave may be granted to those employees who wish to observe Martin Luther King, Jr.'s birthday.

During the 1985-86 fiscal year, two (2) of the specified holidays fall on Sunday and cannot, therefore, be observed. Also following our past practice, we are reallocating twelve (12) hours ($1\frac{1}{2}$ days) from holiday time to vacation time in lieu thereof. The balance available for holidays will, therefore, be reduced by a total of twelve (12) hours resulting in nine and one-half ($9\frac{1}{2}$) days, the observance of which can be adjusted in order to provide more effective work schedules (Article 4591.3, Vernon's Texas Civil Statutes). Added to these nine and one-half ($9\frac{1}{2}$) holidays are the three (3) days indicated in the preceding paragraph, namely November 29, December 24, and December 26, 1985, which are identified as special leave days.

The results of the foregoing action will provide in 1985-86 twelve and one-half ($12\frac{1}{2}$) holidays and special leave days, and a total of twelve (12) working days annual vacation leave for University employees with less than two (2) years service. Vacation accrual for each of the other categories of service will be accordingly increased by one and one-half ($1\frac{1}{2}$) days (12 hours). See the following schedule:

<u>Employees With Total State Employment Of:</u>	<u>U.T. System Administration Hours Accrued Per Hours</u>	<u>Maximum Hours to Carry Forward From One Fiscal Year To Next Fiscal Year</u>
0 but less than 2 years	8	168
2 but less than 5 years	9	192
5 but less than 10 years	10	216

 1985-86 HOLIDAY SCHEDULE AND VACATION ALLOWANCE
 (Continued)

Although all employees are encouraged to utilize vacation in the year which accrued, employees may carry forward unused vacation from one fiscal year to the next. The schedule presented above indicates maximum carry forward authorized by the Appropriations Bill (the one and one-half [1½] days for holidays converted to vacation time must be taken in the 1985-86 fiscal year).

It is recommended for the twelve and one-half (12½) holidays and special leave days the following dates be observed for fiscal year 1985-86:

<u>Date</u>	<u>Holiday</u>	<u>Day of the Week</u>
September 2, 1985	Labor Day	Monday
November 28, 1985	Thanksgiving Day	Thursday
November 29, 1985	Thanksgiving Holiday	Friday
December 23, 1985	*Christmas Holiday	Monday
December 24, 1985	Christmas Holiday	Tuesday
December 25, 1985	Christmas Day	Wednesday
December 26, 1985	Christmas Holiday	Thursday
December 31, 1985	*New Year's Holiday (afternoon)	Tuesday (one-half day)
January 1, 1986	New Year's Day	Wednesday
February 17, 1986	George Washington's Birthday	Monday
April 21, 1986	Texas Sesquicentennial Day	Monday
May 26, 1986	Memorial Day	Monday
July 4, 1986	Independence Day	Friday

*Sufficient personnel must be present for the conduct of official public business in accordance with Article V, Section 7c of the Appropriations Bill. Personnel comprising the skeleton workforce will be granted compensatory time in lieu of the holiday.

An employee who wishes to observe an additional religious holiday or holidays may do so in lieu of any holiday or holidays for which the employee serves as a member of the skeleton workforce required by Article V, Section 7c of the Appropriations Bill, or by taking vacation leave.

The foregoing holiday and special leave schedule and vacation allowance is recommended for approval to The University of Texas System Administration and to any component institution in The University of Texas System that does not request a schedule specifically different.

THE UNIVERSITY OF TEXAS SYSTEM
 U. T. BOARD OF REGENTS' MEETING
 OCTOBER 10-11, 1985
 HOGG FOUNDATION FOR MENTAL HEALTH
 AND IMA HOGG FOUNDATION

Allocations were made from the Hogg Foundation for Mental Health and Ima Hogg Foundation to the following institutions and agencies:

1. Houston Child Guidance Center

Family Crisis Intervention Program - \$2,000

The Ima Hogg Foundation is recommending for approval a supplemental grant for the period September 1, 1985 to August 31, 1986. These funds will be used to enable Mr. Christopher Graham to continue to provide technical assistance to the Family Crisis program. During the past few months, Mr. Graham has been very helpful to the Guidance Center in formulating research ideas related to the Family Crisis program. Mr. Graham is a doctoral student in Psychology and was suggested to the Guidance Center as a potential source of technical assistance because of his interest in the area of adolescent suicide. Dr. Steve Gutstein, Director, will be responsible for the administration of the project.

2. Village Inn of Wimberley, Inc.

Services for Older Citizens - \$5,120

The Hogg Foundation recommends for approval a one-year grant for the period September 1, 1985 to August 31, 1986. The Village Inn of Wimberley, an unincorporated township, attempts to provide services for those older people in the community who have special needs in the areas of housing, transportation, or volunteer endeavors. The Hogg Foundation grant will provide funds to administer several new education efforts in the community specifically aimed at intergenerational communication. Michele M. Goddard, Director, will be responsible for the administration of the project.

3. Texas Department of Mental Health and Mental Retardation
 Austin, Texas

Long-Range Plan for Mental Health Services - \$39,500

The Hogg Foundation Executive Committee recommends for approval a grant for the period September 1, 1985 to February 28, 1986. This grant will be used to develop and implement a long-range plan for mental health services in the state. Support of the proposed planning effort is consistent with the Foundation's statewide mandate and its long involvement with and continued efforts to improve mental health services in Texas. Staff involvement and grants two decades ago helped to develop the state's first mental health code. During the past few years several grants were instrumental in revising that code and in supporting the advisory committee which helped to formulate the most recent mental health legislation. A key part of that legislation (S.B. 633) requires TDMHMR to develop and implement a series of six-year plans for mental health services. The funds requested by that agency will enhance their capacity to meet this legislative requirement, yielding a more efficient and effective plan than would otherwise be the case. Dr. Gary E. Miller, Commissioner, will serve as the project administrator.

AND IMA HOGG FOUNDATION
(Continued)

4. Easter Seal Rehabilitation Center
San Antonio, Texas

Psychiatric Neurobehavioral and Educational Program for Developmentally Disabled Children and Adolescents - \$31,826

The Hogg Foundation recommends for approval a first-year grant for the period September 1, 1985 to August 31, 1986. This grant is for support of a neurobehavioral and educational program for the evaluation and treatment of the psychiatric and educational disorders in the multiply disabled child in Bexar and surrounding counties. Specifically, the aim of this project in Phase I is to develop a two-prong approach to dealing with dual diagnosis patients by diverting them from institutionalized, restrictive environments. Mr. Randel W. Aaron, Executive Director, is responsible for the administration of the program.

5. Family Eldercare, Inc.
Austin, Texas

Family Neglect and Self-Neglect of the Elderly - \$24,936

The Hogg Foundation recommends for approval a one-year grant for the period September 1, 1985 through August 31, 1986, to be addressed to a study regarding neglected older people. The primary goals of the study are to establish a normative description of family neglect and self-neglect of the elderly, including the behavior of family members and then to develop a plan of community intervention against neglect. Jacqueline Lelong, Executive Director will be responsible for the program.

6. Alpine Women's Center
Alpine, Texas

Outreach Program for Women's Center - \$18,000

The Hogg Foundation is recommending for approval a second-year grant for the period September 1, 1985 through August 31, 1986. These monies will continue Hogg Foundation support of the outreach services component of the Alpine Women's Center. As before, the Alpine Women's Center will provide intervention and individual and group counseling services for families experiencing sexual abuse, rape, neglect and violence in domestic situations. Residential services are provided on a 24-hour basis for those families who must be removed from the home environment for their own safety. Ms. Janice Harvey, Director, is responsible for the administration of the program.

7. Department of Educational Psychology,
Texas A & M University

"Project OASIS" - Project Training and Consultation - \$29,439

The Hogg Foundation Executive Committee recommends for approval a first-year grant for the period September 1, 1985 to August 31, 1986. These funds will support a program for statewide dissemination and technology transfer of Project OASIS, a demonstration project designed to address the increasing mental health needs of nursing home residents through the services of a select group of trained retired senior volunteers. Dr. Michael Duffy is responsible for the administration and supervision of the project.

AND IMA HOGG FOUNDATION
(Continued)

8. Mental Health Association in Texas

Mental Health Needs Assessment: Site Consultation and Evaluation - \$9,000

The Hogg Foundation Executive Committee is recommending a one time grant for the period November 1, 1985 through May 31, 1986. The assessment model developed in Austin has proven sufficiently successful so three other Texas communities wish to replicate it with technical assistance of the Mental Health Association in Texas during the coming year. The model that the state office has developed in collaboration with Mental Health Association in Austin shows great promise for application in other Texas communities desperately in need of this same kind of information. This grant is to be administered by Mrs. Stella C. Mullins, Executive Director.

9. The Family Connection
Houston, Texas

Integrated Program of Training and Clinical Services for Treatment Staff - \$25,000

Shorten, Director, will be responsible for the administration of the project.

10. Deaf Council of Greater Houston, Inc.

Houston Deaf Access and Outreach Project - \$30,475

The Ima Hogg Foundation is recommending for approval a first-year grant for the period August 1, 1985 to July 31, 1986. This grant will support the Houston Deaf Access and Outreach project which will provide a continuum of mental health services to deaf children in the Houston area. The communication problems of this population of emotionally disturbed youngsters hinders their efforts to get quality mental health services. An important facet of the project is that it will address the special problems of Spanish-speaking deaf children. Ms. Lucy Rodriguez-Chimelak, Executive Director, will be responsible for the administration of the project.

11. Austin Independent School District

School System Support Services to Students and Families - \$14,863

The Executive Committee of the Hogg Foundation recommends for approval a grant for the period September 1, 1985 to May 31, 1986. The proposed pilot project is designed to determine the various levels of need for social service delivery to students and families in the Austin Independent School District and the feasibility of establishing a relationship between the Austin Independent School District and U. T. Austin School of Social Work as a resource for providing any such services. Dr. Gonzalo Garza, Associate Superintendent, will be responsible for administration of the project.

13. Texas Tech University Health Science Center
(for the Texas Office of Rural Health at the Regional Academic Health Center at the Permian Basin)

Rural Environment and Its Stressors: Phase II - \$29,000

As of August 1, the Texas Rural Health Field Services Program, the grantee and parent organization of the Rural Environment and Its Stressors project, became the Texas Office of Rural Health. The long-term goal of the project will be to minimize maladaptive reactions by rural Texans to stress-producing stimuli or situations in their native environment. Ms. Lois Barry, R.N., M.P.H., will serve as the principal investigator and will be responsible for the administration and supervision of the project. Ms. Karen Mountain, M.S.N., will remain as the project director. Dr. Mary Walker has agreed to participate as a consultant and will assist in the evaluation of the activities for 1985-1986.

14. Mental Health Association of Dallas County

Residential Survey Project - \$14,863

The Hogg Foundation is recommending for approval a one-time grant for the period October 1, 1985 to February 28, 1986. This grant is for a survey of the community residential needs of and services for the mentally ill in Dallas County. The study will further assess the quality and appropriateness of existing residential care and develop a data and decision base which can be used by mental health providers and planners. A "how-to" manual will be developed at the completion of the study to implement replication in other Texas communities. Ms. Cecile Bonte, Executive Director, will be responsible for the administration of the project.

15. Santa Rosa Medical Center (Project Any Baby Can)
San Antonio, Texas

Foster Grandparent/Respite Care Program - \$35,000

The purpose of the Project ABC foster grandparent component will be to provide support for families with developmentally disabled or chronically ill children by making available to these families the respite care services of a foster grandparent. Assigned to families with psychosocial problems and limited resources, the grandparent will focus on providing in-home personalized care and individual attention needed by the client, or special child. Dr. Marion Sokol, Director, will be responsible for the administration of the project.

A training manual comprises one portion of the program effort. Christine B. Siegfried and Jane F. Oderberg will be responsible for the administration of the project.

17. Meadowbriar Home for Girls
Houston, Texas

These leaders will be trained in a variety of areas, such as listening and counseling techniques, communication skills, human development processes, socialization skills, resource development, and self-help approaches. Mrs. Amelia Castillo, Executive Director, is responsible for administration of the program.

21. Family Service Center of Galveston County

Parent Resource Center - \$13,420

The Hogg Foundation Executive Committee recommends for approval a second-year grant for the period July 1, 1985 through June 30, 1986. Mr. Craig Brestrup, Executive Director, will be responsible for administration of the project.

22. Urban Affairs Corporation
Houston, Texas

Fifth Ward Enrichment Program - \$27,222

The Executive Committee of the Ima Hogg Foundation recommends for approval a continuation grant for the period June 1 to August 31, 1985. These funds are intended to cover an expanded summer program and a site visit by the Fifth Ward Enrichment Program staff to the Yale Child Study Center. This demonstration project is designed to provide development activities for a high risk population of adolescent males in the Fifth Ward of Houston. Based on consultant observations, the Fifth Ward Enrichment Program has the potential for becoming a national model of an effective preventive mental health project for black adolescent males. Donna Bryant, Executive Director, will be responsible for administration of the project.

23. Department of Psychology
U. T. Austin

Fetal Alcohol and the Ontogeny of Reactions to Frustration and Discrepancy - \$12,660

The Hogg Foundation recommends for approval a one-year grant for the period September 1, 1985 to August 31, 1986. While the Foundation ordinarily does not support research on the biological basis of behavior, this project has relevance to a better understanding of brain mechanisms which underlie fetal alcoholism. Generalizations from animal experiments to human behavior are often of debatable value, but there is every reason to believe that both the temperamental-emotional behavior and the associative learning are valid analogs of the comparable behavior in human beings. Significant interactions between developmental level, behavioral indicators of emotion and associative processing, and damage to the hippocampal regions of the brain in these experimental studies with rats would provide a strong basis for systematic clinical investigations using human subjects. Dr. Abram Amsel, Ashbel Smith Professor, is responsible for the administration of the program.

Homelessness in a Sun-Belt City--Its Nature, Causes, and Consequences - \$17,635

The Hogg Foundation Executive Committee recommends for approval a second-year grant for the period September 1, 1985 through July 31, 1986. Progress to date on the study has been commendable and in line with its original goals. It involves a systematic observation and interviewing of the homeless in Austin, as well as the analysis of records of those agencies serving the homeless. The available records offer the opportunity to track a larger number of homeless individuals through the existing institutional structure to ascertain the utilization patterns among the homeless. Dr. David Snow, Associate Professor, will be responsible for continued administration of the project.
(RBC D104)

25. Department of Sociology
U. T. Austin

Geographic Variation in Divorce in Texas - \$13,334

The Hogg Foundation Executive Committee recommends for approval a one-year grant for the period September 1, 1985 to August 31, 1986. This grant is for support of research on geographic variation in divorce in Texas. The purpose of the research is to indentify characteristics of cities and counties which are conducive to marital stability. Divorce rates in the state of Texas are among the highest in the country, yet the state includes cities and counties with both extremely high and low divorce rates. This study of intra-state variation, which controls for the effect of family law, is likely to offer a better understanding of demographic and ecological factors related to divorce in Texas. Dr. Norval Glenn, Ashbel Smith Professor of Sociology, will be responsible for the administration of the project.
(RBC D105)

26. Department of Sociology
U. T. Austin

Research on Prison Violence - \$14,357

The Hogg Foundation Executive Committee recommends for approval a supplemental grant for the period September 1 through December 31, 1985. Dr. Sheldon Ekland-Olson has conducted extensive secondary analysis on existing data sources compiled by the Texas Department of Corrections in order to examine various theoretical frameworks on the forms and causes of prison violence. Because of promising results thus far, Dr. Ekland-Olson has been given complete access to all records at the Attorney General's Office, beginning with the initial case of Ruiz vs. State of Texas in 1972 through the final settlement in 1985. This new reservoir of data and files should allow for completion of a more comprehensive study of the causes of violence in Texas prisons. Dr. Ekland-Olson will be responsible for the administration of the project.

The Hogg Foundation is recommending for approval a second-year grant for the period September 1, 1985 to August 31, 1986. These funds will be used to complete data collection and analysis for a study which explores the reasons for the seemingly negative outcome of many adoptions. The hoped-for outcome will be to build a theory of adoptive kinship and to improve agency practice in the selection and preparation of families for adoptive parenthood. Dr. Ruth McRoy will be responsible for the administration of the project. (RBC D106)

28. School of Social Work
U. T. Austin

An exploratory Study of Black Families in Two Texas Communities: Their World Views and Mental Health - \$13,545

The Executive Committee of the Hogg Foundation recommends for approval a supplemental grant for the period July 1 to December 31, 1985. The summer months covered by this supplementary grant will be used to complete the interviews of families in Austin and Prairie View. During the fall, the final phase will involve coding, data analysis and writing, dissemination of results through conferences and speaking engagements, evaluation, and preparation of the final report. Dr. Richard A. English is responsible for administration of the project. (RBC D100)

29. Institute of Human Development and Family Studies
U. T. Austin

Strengthening and Fostering Interests and Activities in Gerontology - \$38,110

The Hogg Foundation Executive Committee recommends for approval the third of four annual grants for the period September 1, 1985 through August 31, 1986. The continued goals and activities of this program include (1) supporting a number of small research studies on various aspects of aging which may enable investigators to secure larger grants from outside agencies; (2) expansion and improvement of a gerontology newsletter (which now has a circulation of 1,800); (3) sponsoring symposia on various gerontology topics; (4) stimulating new courses on aging in various U. T. Austin departments; (5) offering technical assistance and consultation to community and state agencies, and (6) serving as an information dissemination clearinghouse. Dr. Ira Iscoe, Director of the Institute of Human Development and Family Studies, will continue to administer the program. (RBC D102)

Learning Abilities Center Interdisciplinary Child/Family Clinic - \$24,644

The Hogg Foundation recommends for approval an initial one-year grant for the period September 1, 1985 through August 31, 1986. This grant, along with the support from the Department of Psychology, the College of Education, and the School of Social Work, will fund the Center's Interdisciplinary Child/Family Services Training Clinic. For the first time, faculty and graduate students within Clinical Psychology, School Psychology, Counseling Psychology, Special Education, and Social Work will be able to obtain advanced practicum training of an interdisciplinary nature involving professional services for children and their families on the University campus. Dr. William R. Harmer, Director, will be responsible for the administration of the program. (RBC D107)

31. Department of Psychiatry and Behavioral Sciences
U. T. Health Science Center - Houston

Diagnosing Hispanic Psychiatric Patients - \$9,660

The Hogg Foundation recommends for approval a supplemental grant for the period of September 1 to October 31, 1985. This funding is needed because it has taken longer than expected to complete the coding and editing of different large sets of medical records. Also, anticipated federal support was not approved, although the principal investigator has been encouraged to submit a revised proposal. The Hogg Foundation grant will be used to facilitate the completion of the existing NIMH study as well as to prepare a revised application to the National Institute on Drug Abuse. A final product will be the publication of the code books, which will be disseminated in the United States and Mexico. Dr. Robert E. Roberts, Professor and Director, is responsible for the administration of this project.

32. Department of Psychiatry
U. T. Health Science Center - San Antonio

Study of Hallucinations in Bilinguals - \$4,920

The Hogg Foundation Executive Committee recommends for approval a one-time grant for the period July 1, 1985 through June 30, 1986. This grant is for support of the second phase of a clinical research study of auditory hallucinations in Hispanic psychiatric patients. One hundred fifty patients will be interviewed at various mental health residential care units and San Antonio State Hospital in Bexar County. This larger, more definitive study will attempt to corroborate the results of the pilot study, examine the relationship between age at which an individual learned English and the language of hallucination, and assess the differences in the language of hallucinations among bilingual Hispanic psychiatric patients diagnosed as having schizophrenia, affective disorder, or organic psychosis. Dr. Cervando Martinez, Jr., Professor, will be in charge of administering the grant.

CATALOG CHANGES

The Catalog Changes recommended for approval by the U.T. Board of Regents have been approved by an attorney in the Office of General Counsel.

THE SCHOOL OF NURSING

Page 14

Conduct and Discipline

Students are responsible for knowing and observing the University's Regulations Governing Student Conduct and Discipline and the Rules and Regulations of the Board of Regents of The University of Texas System. Copies of the regulations are available from the Office of Student Services. In addition to these regulations, standards of professional conduct may be set by each school of the Health Science Center.

In summary, the Regulations provide that:

Every faculty member, student, and administrative official has the right to initiate disciplinary complaints and the responsibility to do so when scholastic dishonesty is involved.

The Director of Student Services is responsible for investigating allegations of violations of rules of the Health Science Center, and the person acting in the capacity of Dean of Student Affairs of each school is responsible for investigating charges of scholastic dishonesty. A student accused of misconduct is presented with the charges in writing the Rules and Regulations of the Board of Regents and the Regulations Governing Student Conduct and Discipline.

If the accused does not dispute the facts and waives a hearing, the Director of Student Services or the person acting in the capacity of Dean of Student Affairs of each school is responsible for investigating charges of scholastic dishonesty. A student accused of misconduct is presented with the charges in writing.

If the accused does not dispute the facts and waives a hearing, the Director of Student Services or the person acting in the capacity of Dean of Student Affairs assesses a penalty consistent with those outlined in the regulations. If the student desires a hearing, a hearing officer will be selected by the University President to hear evidence, to adjudicate guilt or innocence, to render a written decision within findings of fact, and to recommend impose a penalty if one is due. The decision may be appealed in turn to the President of the Health Science Center, and the Vice Chancellor for Health Affairs of The University of Texas System.

Penalties which may be imposed include a warning, probation, a financial penalty when property damage is involved, suspension of rights and privileges deriving in whole or part from the University, suspension of eligibility for office or honor, loss of credit for scholastic work, reduction of the grade in an assigned course, a failing examination grade, a failing grade in the course, suspension from the University, withholding of grades, transcripts or degrees, expulsion, or other penalty recommended imposed by the hearing officer and approved by the Administration, or the Director of Student Services.

Special (Non-Degree) Students

One who is not currently enrolled in the School of Nursing but who wishes to take nursing electives may be admitted as a Special Student. Special Student status may be granted to an individual who wishes to enroll in a course(s) presented by the School of Nursing without entering a degree program. Those who are eligible for Special Student Admission include: (a) a graduate of a baccalaureate program in nursing or (b) a student currently enrolled and in good standing in a baccalaureate nursing program at another institution. (c) an applicant who has met requirements for admission to the School of Nursing and who wishes to enroll in an elective, or (d) a formerly admitted student who has been denied readmission for the current semester due to lack of space.

Special Students will be allowed to take a maximum of twelve semester hours of elective courses. It is the student's responsibility to determine if the elective course is transferable to his or her school. Credit for these courses toward a Bachelor of Science in Nursing degree from UTHSCSN will be considered only if the student is fully subsequently admitted to the program.

Transfer Students

Individuals who wish to transfer into the BSN program of the School of Nursing must have completed the 60 hours of pre-nursing course work required by this institution and accumulated a grade point average of 2.30 in required courses and an overall grade point average of 2.0. Applicants must also be eligible for readmission at their current/former school of nursing. At least 24 of the final 30 hours of work in the nursing major must be completed at UTHSCSA School of Nursing.

Page 43

Scholastic Probation

If at the end of any long session a semester or summer session a student's grade point average for the total number of required upper-division hours undertaken to meet degree requirements falls below 2.0, he or she will be placed on scholastic probation. This policy applies to a student who has been reinstated following academic dismissal or who has withdrawn from a course with a failing grade. The student will be notified that he or she is on scholastic probation. A student who earns a D or F in a required course or who drops a required course while failing will be placed on scholastic probation even if his or her average is 2.0 or above. A Student who has been reinstated following academic dismissal will be placed on scholastic probation for at least one semester following readmission.

A student on probation will be removed from such probation at the conclusion of the semester when he or she has achieved an overall 2.0 average.

High School Graduates of State Orphanages of Texas, by an act of the 51st Legislature, who are citizens of Texas, are exempt from certain required fees but not from deposits. After application for admission has been approved, the candidate should request a scholarship card from the Financial Aid Administrator.

Page 67

The decision regarding admission/readmission is made by the Committee on Graduate Studies on the basis of the criteria outlined above as well as the quality of previous course work and demonstrated potential for a productive career in advanced nursing practice.

Conditional Admission

An applicant with less than the minimum grade point average or GRE Aptitude or Miller Analogies Test score may be admitted conditionally in some cases. Applicants will be considered individually but must meet one of the following conditions:

- (a) A GRE score of 1000 or above or MAT score of 50 and a cumulative GPA of 2.85 to 2.99 or an upper-division GPA of 3.0
- (b) A cumulative GPA of 3.0 or above and a GRE score of 950-990 or MAT score of 45-49.

Page 68

Individuals who have not registered in two consecutive terms must apply for readmission unless they were previously granted official permission for leave of absence.

Those seeking readmission are subject to all requirements, procedures, and acceptance considerations outlined in this catalog.

Admission of Non-degree (Special) Students in Nursing

Special admission may be approved for limited graduate courses for credit. Special Students in Nursing may complete a maximum of 8 semester hours of course work in the School of Nursing. Admission procedures may vary according to the educational preparation of the applicant.

Special Student status may be granted to an individual who wishes to enroll in a course(s) presented by the graduate program in nursing without entering a degree program.

Page 68 (continued)

Special Students may be admitted to specific courses on a space-available basis with the consent of the instructor. Individuals with this status are approved for limited graduate courses for credit; generally, the maximum number of hours allowed for special students enrolling in graduate nursing courses is 9 semester hours. Additional hours may be taken only with the approval of the Committee on Graduate Studies.

Special Students must earn no grades lower than B (3.0) to be allowed to register for additional course work.

Applicants with Special Student status are accepted for a specific semester of summer session. If the applicant chooses not to enroll following acceptance, he or she must be reconsidered for admission for a subsequent term.

Applicants Who Have a Master's Degree in Another Field

Applicants who have a master's degree in a field other than nursing may apply for Special Student admission by completing an application, submitting official transcripts from BSN and Master's programs and proof of current licensure as a registered nurse.

Applicants Who Are Currently Enrolled in Another Graduate Program

An applicant who is currently enrolled in another graduate program may apply for Special Student admission by completing an application, submitting an official transcript from a BSN program, a letter from his or her program adviser stating that the student is in good academic standing, and proof of current licensure as a registered nurse.

Page 69

Applicants Who Do Not Have a Bachelor of Science in Nursing

In exceptional circumstances, a senior level undergraduate nursing student with a superior academic record may be permitted to register for graduate level courses. Applicants who have a baccalaureate or higher degree in another discipline will be considered on an individual basis.

Applicants are accepted for Special Student admission for a specific semester or summer session. If an applicant chooses not to enroll that semester or summer session, his or her application must be reconsidered for Special Student admission if the applicant desires to enroll in a subsequent semester or summer session.

Individuals who are interested in applying for Special Student admission should review the General Policies for all Special Students in Nursing. (See General Policies.)

Foreign Students

Applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL)* as well as the GRE or MAT. Minimum TOEFL score for admission is 550. Information about the TOEFL is available in many locations outside the United States - usually at American embassies and consulates, Offices of the United States Information Service (USIS), United States educational

Degree Requirements

The Master of Science in Nursing program consists of four major components (core courses, research-specialized clinical content courses, and functional content courses) and electives or thesis. The program is designed to be completed in three regular semesters of full-time study for students entering in the Fall semester; however, part-time enrollment is feasible within the program plan. Selected courses may be offered during summer sessions, but students should not anticipate completing the program by attending summer sessions only or by attending less than three regular semesters. Students who enter in the Spring semester may require four semesters to complete the program.

For this degree, a minimum of 36 semester hours of upper-division and graduate courses is required. The maximum number of semester hours of upper-division level course work which may be included is three, and this undergraduate course work may not be completed outside the School of Nursing. All course work must be completed within five years of enrollment in the program. Students must complete 12 semester hours of required courses in nursing, a clinical major consisting of 12 semester hours of established sequential course work, and a functional minor consisting of six semester hours in established sequential courses.

Clinical majors offered in the master's program include medical-surgical, nursing service administration, psychiatric/mental health, maternal/parent child health, nursing care of children, maternity and community health nursing. Functional minors include teaching and administration.

Scholastic Probation

A student whose cumulative grade point average or nursing grade point average falls below 3.0 will be placed on probation and warned that continuation in the graduate program is in jeopardy. A student will remain on probation as long as his or her cumulative or nursing cumulative grade point average is below 3.0. While on probation, a student must maintain a B average in those courses for which he or she is registered or be considered for dismissal and will not be permitted to drop any course except in the case of illness. The probation period shall extend no longer than two consecutive semesters of enrollment. No more than one probationary period shall be permitted. Elective courses may not be taken during the probationary period, and the student may not drop any course.

To be removed from probation, the student must achieve a 3.0 cumulative grade point average by the completion of the probationary period. Failure to accomplish the required average will result in the student's dismissal from the program.

Dropping Courses

Dropping refers to the procedure by which students remove themselves from one or more of the courses in which they are enrolled while continuing in the remainder of their courses. A student who is enrolled in only one course must either withdraw or apply for a leave of absence if he or she intends to drop the course.

Page 85 (continued)

Students may, with the approval of the faculty and the Associate Dean, drop a course at any time during the first six weeks of class work of any semester, or during the first two weeks of class work of any summer session with a Q recorded for the course. (A student on probation will not be allowed to drop a course except in the case of illness.) before the first examination/graded assignment without having a grade recorded on the transcript. The symbol Q will be recorded and the grade computation will not be affected.

After the first six weeks (the last date at which a Q can be recorded for dropping), leaving a course for any reason will result in a grade of incomplete, which must be removed in accordance with policies for incomplete courses.

With the approval of the instructor and the Associate Dean, a student may drop a course at any time before the last official class day in the semester if a passing grade has been maintained. The symbol WF will be recorded.

Page 86

Leave of Absence

Permission for a leave of absence from the graduate program for a maximum period of one year may be granted upon written application of the student. To be eligible to request a leave of absence, a student must have maintained a 3.0 grade point average and must not have dropped any course(s) with a WF. A leave of absence indicates that the student will be permitted to re-enroll within a one-year time limit. Students who do not return within the time limit must apply for readmission.
