Depression in Children: A Developmental High Risk Approach - \$17,712.00

1. The Hogg Foundation Executive Committee is recommending for approval a second and final grant in the amount of \$17,712.00 to the University of Houston for the period of October 1, 1981 to September 30, 1982. These funds will be used to conduct further research in the area of childhood depression. The current effort extends the results of previous investigations funded by the Hogg Foundation. The present study will add the new dimensions of a non-clinical control group and will also gather information from the fathers of children in the sample group. The research will help in answering questions about the existence of a distinct syndrome of child depression; the way such a syndrome differs from adult depression; the role of "masking" symptoms; the relationship of child depression to parental depression; and the effects of the child's age.

The successful completion of this second year of research will strengthen the research team's NIMH application for the support of a comprehensive study of childhood depression with funding likely during the next year. Dr. Lynn P. Rehm and Dr. Alexander W. Siegel, who are responsible for the administration of the project, will submit both a fiscal accounting and a narrative evaluation of the program at the close of the grant period. Dr. Wayne H. Holtzman and Dr. Ralph E. Culler will continue to serve as liaison persons for the Ima Hogg Foundation.

University of Texas Health Science Center at San Antonio, Department of Pediatrics

Mexican-American Preterms: Parenting and Development over the First Year - \$26,023.00

2. The Hogg Foundation Executive Committee is recommending for approval a second-year grant in the amount of \$26,023.00 to a project entitled, "Mexican-American Preterms: Parenting and Development over the First Year," a high-risk neonatal program designed to address the physical and mental health problems of premature newborns and their families. This amount represents a second-year grant to aid in supporting an organized family support program which could play a prominent role in maintaining family stability and in minimizing familial dysfunction during the delivery of preterm, high-risk neonates at Bexar County Hospital, San Antonio, Texas.

This project is administered by the Department of Pediatrics, The University of Texas Health Science Center at San Antonio. The Bexar County Hospital District, the Texas Department of Health, and The University of Texas Health Science Center are providing funds and/or staff to support this project. The second-year grant will continue to build on the work performed during the first year in the areas of early identification of physical and mental health problems, early identification of familial problems, provision of parental counseling and referral services, and enhancement of continuity of care for infants. The second-year grant period will extend from October 1, 1981 through September 30, 1982.

HOGG FOUNDATION FOR MENTAL HEALTH (Continued)

An annual report will be submitted to the Foundation for review and comment in advance of the end of the second-year grant period. The funds from the Foundation will support a part-time psychologist/child developmentalist, a pediatric nurse, travel, equipment and supplies, data processing services, and postage and communications.

Dr. Marilyn Escobedo, who is assistant professor at The University of Texas Health Science Center and head of the Department of Neonatology and Nursery at Bexar County Hospital, is responsible for the administration and supervision of the project. Dr. Escobedo will submit progress and annual reports and a fiscal accounting to the Foundation at the end of the second-year grant period. Dr. Terrence R. Tutchings and Mr. Reymundo Rodriguez will serve as liaison representatives for the Hogg Foundation.

THE UNIVERSITY OF TEXAS AT AUSTIN
 AMENDMENTS TO THE 1981-82 OPERATING BUDGET
 BOARD OF REGENTS MEETING - DECEMBER 10-11, 1981

The term "rate" for academic personnel is the full-time nine-month base rate; for all other personnel it is the full-time twelve-month rate, the appointee receiving a proportionate amount depending upon the fraction of time for which he is appointed and the period of his appointment. Source of funds for payment of salaries, unless otherwise shown, is the departmental salaries account, including the Available University Fund.

Appointments and reappointments of faculty and staff included in the Docket apply to personnel not listed in the printed budget. Funding for these positions is included in the original budget in departmental salary accounts or in the institutional unallocated accounts. Personnel carried over from 1980-81 into 1981-82 through this reappointment process were given the 9.2% legislative mandated salary adjustment and in selected cases additional merit increases, as appropriate.

602. TRANSFERS FROM AVAILABLE UNIVERSITY FUND TO DEPARTMENTS OR PROJECTS

The following list of transfers represents appropriations to Departments and Projects from the allocations included in the 1981-82 Original Budget for:

- (a) Academic and Research Development Projects
- (b) Updating Teaching and Laboratory Equipment
- (c) Repair Projects
- (d) Educational Programs and Projects
 - (1) Academic Development
 - (2) Research Projects
 - (3) Visiting Lecturers and Consultants

These AUF funds are allocated to the colleges/schools and other administrative units to support new classroom and laboratory equipment acquisitions, to replace worn out or obsolete instructional equipment and to be used as matching funds for those Federal funding programs that provide teaching and graduate research equipment on a matching basis. Support is provided for special projects to improve and enhance selected instructional and graduate research training programs as approved by the President for emergency repairs, remodeling and related items necessary to maintain the academic facilities. (Account Nos. 19-9840-9000, 19-9830-9000, 19-9860-9000)

These AUF funds support the core academic programs and scholarly activities of the colleges/schools by enabling the deans to initiate improvements in and new development of undergraduate and graduate curricular materials and classroom instructional procedures, to enrich the academic programs through special seminars, workshops and colloquia, and to attract outstanding prospective faculty members to visit the campus and present a scholarly seminar to University faculty/students. Special projects for the development of new academic programs and new research capabilities in support of graduate training efforts are funded as approved by the President. (Account Nos. 20-9890-9000, 20-9892-9000, 20-6250-2030)
