Executive Summary

Article 2.132-2.134 of the Texas Code of Criminal Procedure (CCP) requires the annual reporting to the local governing body of data collected on motor vehicle stops in which a ticket, citation, or warning was issued and to arrests made as a result of those stops, in addition to data collection and reporting requirements. Article 2.134 of the CCP directs that “a comparative analysis of the information compiled under 2.133” be conducted, with specific attention to the below areas:

1. evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities;
2. examine the disposition of motor vehicle stops made by officers employed by the agency, categorized according to the race or ethnicity of affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction;
3. evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches; and
4. information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

Introduction

This report details an analysis of the University of Texas System Police policies, training, and statistical information on racial profiling for the year 2022. This report has been prepared to specifically comply with Articles 2.132, 2.133, and 2.134 of the Texas Code of Criminal Procedure (CCP) regarding the compilation and analysis of traffic stop data. Specifically, the analysis will address Articles 2.131 – 2.134 of the CCP and make a determination of the level of compliance with those articles by the University of Texas System Police in 2022. The full copies of the applicable laws pertaining to this report are contained in Appendix A.

This report is divided into six sections: (1) University of Texas System Police policy on racial profiling; (2) University of Texas System Police training and education on racial profiling; (3) University of Texas System Police complaint process and public education on racial profiling; (4) analysis of University of Texas System Police traffic stop data; (5) additional traffic stop data to be reported to TCOLE; and (6) University of Texas System Police compliance with applicable laws on racial profiling.

For the purposes of this report and analysis, the following definition of racial profiling is used: racial profiling means a law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity (Texas CCP Article 3.05).

University of Texas System Police Policy on Racial Profiling

A review of the University of Texas System Police Bias-Based and Racial Profiling policy 201, in addition to policy 204 on Complaint Investigation, indicates the University of Texas System Police are in compliance with Article 2.132 of the Texas CCP (see Appendix B). There are seven specific requirements mandated by Article 2.132 that a law enforcement agency must address. All seven are covered in the University of Texas System Police Bias-Based Profiling and Racial Profiling policy 201 and policy 204 on Complaint Investigation. University of Texas System Police policies provide clear direction that any form of bias-based or racial profiling is prohibited and that officers found engaging in inappropriate profiling may be disciplined up to and including termination. The policies also provide a very clear statement of the agency's philosophy regarding equal treatment of all persons regardless of race, ethnicity, or national origin. It should also be noted that each campus under the umbrella of the University of Texas System Police also have information concerning racial profiling on their departmental websites. University of Texas System Police Policies can be found at <https://www.utsystem.edu/offices/police/odop-policies>. Appendix C lists the applicable statute and corresponding University of Texas System Police regulations.

A COMPREHENSIVE REVIEW OF THE UNIVERSITY OF TEXAS SYSTEM POLICE RACIAL PROFILING POLICY SHOWS THAT THE UNIVERSITY OF TEXAS SYSTEM POLICE IS FULLY IN COMPLIANCE WITH ARTICLE 2.132 OF THE TEXAS CODE OF CRIMINAL PROCEDURE.

University of Texas System Police Training and Education on Racial Profiling

Texas Occupation Code § 1701.253 and § 1701.402 require that curriculum be established and training certificates issued on racial profiling for all Texas peace officers. Information provided

by University of Texas System Police reveals officers have received their racial profiling training via roll call training or through electronic means.

A REVIEW OF THE INFORMATION PRESENTED AND SUPPORTING DOCUMENTATION REVEALS THAT THE UNIVERSITY OF TEXAS SYSTEM POLICE IS FULLY IN COMPLIANCE WITH TEXAS LAW ON TRAINING AND EDUCATION REGARDING RACIAL PROFILING.

University of Texas System Police Complaint Process and Public Education on Racial Profiling

Article 2.132 §(b)3-4 of the Texas Code of Criminal Procedure requires that law enforcement agencies implement a complaint process on racial profiling and that the agency provide public education on the complaint process. University of Texas System Police Bias-Based and Racial Profiling policy 201, along with policy 204 on Complaint Investigation cover this requirement. In specific, policy 201 notes that information on the compliment and complaint process will be advertised to the public by utilizing various forms of news media (e.g., social media and institution department websites), service or organization presentations, campus meetings, and on the University of Texas System Police Office of the Director of Police web page.

A REVIEW OF THE DOCUMENTATION PRODUCED BY THE UNIVERSITY OF TEXAS SYSTEM POLICE REVEALS THAT THE UNIVERSITY OF TEXAS SYSTEM POLICE IS FULLY IN COMPLIANCE WITH APPLICABLE TEXAS LAW ON THE RACIAL PROFILING COMPLAINT PROCESS AND PUBLIC EDUCATION ABOUT THE COMPLAINT PROCESS.

University of Texas System Police Statistical Data on Racial Profiling

Article 2.132(b) 6 and Article 2.133 requires that law enforcement agencies collect statistical information on motor vehicle stops in which a ticket, citation, or warning was issued and to arrests made as a result of those stops, in addition to other information noted previously. University of Texas System Police submitted statistical information on all motor vehicle stops in 2022 and accompanying information on the race/ethnicity of the person stopped. Accompanying this data was the relevant information required to be collected and reported by law.

ANALYSIS OF THE DATA REVEALS THAT THE UNIVERSITY OF TEXAS SYSTEM POLICE IS FULLY IN COMPLIANCE WITH APPLICABLE TEXAS LAW ON THE COLLECTION OF RACIAL PROFILING DATA.

Analysis of the Data

Comparative Analysis #1:

Evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities. Texas Code of Criminal Procedure Article 2.134(c)(1)(A)

Chart 1 depicts the percentages of people stopped by race/ethnicity among the total 11,991 motor vehicle stops in which a ticket, citation, or warning was issued, including arrests made, in 2022.²

Chart 1: Percentage of Motor Vehicle Stops in Comparison to Benchmark

White drivers constituted 33.47 percent of all drivers stopped, whereas Whites constituted 25.00 percent of the University of Texas System student population.³

Black drivers constituted 16.45 percent of all drivers stopped, whereas Blacks constituted 7.00 percent of the University of Texas System student population.

Hispanic drivers constituted 35.43 percent of all drivers stopped, whereas Hispanics constituted 44.00 percent of the University of Texas System student population.

Asian drivers constituted 13.94 percent of all drivers stopped, whereas Asians constituted 13.00 percent of the University of Texas System student population.

The chart shows that White drivers are stopped at a rate higher than the percentage of Whites found in the student population. Black drivers are stopped at rates higher than the percentage of Blacks found in the student population. Hispanic drivers are stopped at rates lower than the percentage

² There were 87 motor vehicle stops of drivers of Alaska Native/American Indian descent. These motor vehicle stops were not charted in the first figure of this report due to the small number of stops relative to the total number of motor vehicle stops among all drivers (11,991).

³ Student demographic information was obtained from the 2022 University of Texas System “Smartbook” produced by the Office of Institutional Research and Analysis. This report can be accessed at <http://data.utsystem.edu/SmartBook>.

of Hispanics found in the student population. Asian drivers are stopped at rates almost equal to the percentage of Asians found in the student population.

Methodological Issues

Upon examination of the data, it is important to note that differences in overall stop rates of a particular racial or ethnic group, compared to that racial or ethnic group's proportion of the student population (or any other population benchmark), cannot be used to make determinations that officers have or have not racially profiled any given individual motorist. Claims asserting racial profiling of an individual motorist from the aggregate data utilized in this report are erroneous.

For example, concluding that a particular driver of a specific race/ethnicity was racially profiled simply because members of that particular racial/ethnic group as a whole were stopped at a higher rate than their proportion of the student population (or any other population benchmark)—are as erroneous as claims that a particular driver of a specific race/ethnicity could NOT have been racially profiled simply because the percentage of stops among members of a particular racial/ethnic group as a whole were stopped at a lower frequency than that group's proportion of the particular population base (e.g., student population). In short, aggregate data as required by law and presented in this report cannot be used to prove or disprove that a member of a particular racial/ethnic group was racially profiled. Next, we discuss why using aggregate data—as currently required by the state racial profiling law—are inappropriate to use in making claims that any individual motorist was racially profiled.

Issue #1: Using Group-Level Data to Explain Individual Officer Decisions

The law dictates that police agencies compile aggregate-level data regarding the *rates* at which agencies *collectively* stop motorists in terms of their race/ethnicity. These aggregated data are to be subsequently analyzed in order to determine whether or not *individual* officers are “racially profiling” motorists. This methodological error, commonly referred to as the “ecological fallacy,” defines the dangers involved in making assertions about individual officer decisions based on the examination of aggregate stop data. **In short, one cannot prove that an individual officer has racially profiled any individual motorist based on the rate at which a department stops any given group of motorists.** In sum, aggregate level data cannot be used to assess individual officer decisions, but the state racial profiling law requires this assessment.

Issue #2: Problems Associated with Population Base-Rates

There has been considerable debate as to what the most appropriate population “base-rate” is in determining whether or not racial/ethnic disparities exist. The base-rate serves as the benchmark for comparison purposes. The outcome of analyses designed to determine whether or not disparities exist is dependent on which base-rate is used. While this report utilized the UT System overall student population as the base rate, this population measure is only a segment of the populations who are subject to traffic stops by UT System police officers including faculty, staff, and individuals not affiliated with the UT System.

The validity of the benchmark base-rate becomes even more problematic if analyses fail to distinguish between students and non-students who are stopped. This is because the existence of

significant proportions of non-student stops will lead to invalid conclusions if racial/ethnic comparisons are made exclusively to student population figures as presented in Chart 1. **In sum, a valid measure of the driving population does not exist. As a proxy, student population data is used which can be a problematic indicator of the driving population on and around UT System campuses.** Finally, stopped motorists who are not students are not included in the benchmark base-rate.

Issue #3: Officers Do Not Know the Race/Ethnicity of the Motorist Prior to the Stop

As illustrated in Table 3 near the end of this report, of the 11,991 motor vehicle stops in 2022, the officer knew the race/ethnicity of the motorist prior to the stop in 0.83% of the stops (100/11,991). This percentage is consistent across law enforcement agencies throughout Texas. An analysis of all annual racial profiling reports submitted to the Texas Commission on Law Enforcement, as required by the Texas racial profiling law, found that in 2.9% of the traffic stops in Texas, the officer knew the race/ethnicity of the motorist prior to the stop.⁴ The analysis included 1,186 Texas law enforcement agencies and more than 3.25 million traffic stops.

As noted, the legal definition of racial profiling in the Texas Code of Criminal Procedure Article 3.05 is “a law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.”

Almost always, UT System police officers do not know the race/ethnicity of the motorist prior to the stop. This factor further invalidates any conclusions drawn from the stop data presented in Chart 1. If an officer does not know the race/ethnicity of the motorist prior to the stop, then the officer cannot, by legal definition, be racial profiling. Racial profiling is a law-enforcement action based on the race/ethnicity of an individual. If the officer does not know the person's race/ethnicity before the action (in this case, stopping a vehicle), then racial profiling cannot occur.

Based on this factor, post-stop outcomes are more relevant for a racial profiling assessment, as presented later in this report, in comparison to initial motor vehicle stop data disaggregated by race/ethnicity. Once the officer has contacted the motorist after the stop, the officer has identified the person's race/ethnicity and all subsequent actions are more relevant to a racial profiling assessment than the initial stop data.

In short, the methodological problems outlined above point to the limited utility of using aggregate level comparisons of the rates at which different racial/ethnic groups are stopped in order to determine whether or not racial profiling exists within a given jurisdiction.

Table 1 reports the summaries for the total number of motor vehicle stops in which a ticket, citation, or warning was issued, and to arrests made as a result of those stops, by University of Texas System police officers in 2022. Table 1 and associated analyses are utilized to satisfy the comparative analyses as required by Texas law, and in specific, Article 2.134 of the CCP.

Comparative Analysis #2:

Examine the disposition of motor vehicle stops made by officers employed by the agency, categorized according to the race or ethnicity of affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction. Texas Code of Criminal Procedure Article 2.134(c)(1)(B)

As shown in Table 1, there were a total of 11,991 motor vehicle stops in 2022 in which a ticket, citation, or warning was issued. The table also shows arrests made as a result of those stops. Verbal warnings (5,704), written warnings (3,106), and citations (2,890) were the most frequent result of stops actions in 2022. Roughly 48 percent of the motor vehicle stops resulted in a verbal warning (5,704/11,991), roughly 26 percent resulted in a written warning (3,106/11,991) and roughly 24 percent resulted in a citation (2,890/11,991). These actions accounted for roughly 98 percent of all result of stop actions and will be discussed in more detail below.

Specific to **verbal warnings**, White motorists received a verbal warning in roughly 58 percent of stops involving White motorists (2,321 verbal warnings / 4,013 motor vehicle stops), Black motorists received a verbal warning in roughly 47 percent of stops of Black motorists, Hispanic motorists received a verbal warning in roughly 30 percent of stops of Hispanic motorists, and Asian motorists received a verbal warning in roughly 68 percent of stops of Asian motorists.

Specific to **written warnings**, White motorists received a written warning in roughly 20 percent of stops involving White motorists (790 written warnings / 4,013 motor vehicle stops), Black motorists received a written warning in roughly 23 percent of stops of Black motorists, Hispanic motorists received a written warning in roughly 38 percent of stops of Hispanic motorists, and Asian motorists received a written warning in roughly 13 percent of stops of Asian motorists.

White motorists received a **citation** in roughly 20 percent of stops involving White motorists (810 citations / 4,013 motor vehicle stops), Black motorists received a citation in roughly 26 percent of stops of Black motorists, Hispanic motorists received a citation in roughly 29 percent of stops of Hispanic motorists, and Asian motorists received a citation in roughly 19 percent of stops of Asian motorists.

Of the 11,991 total stops in 2022, 291 **arrests** [written warning and arrest (13), citation and arrest (66) and arrest only (212)] were made, and this accounts for 2.4 percent of all stops. White motorists were arrested in 2.3 percent of stops involving White motorists (92 arrests / 4,013 motor vehicle stops), Black motorists were arrested in 4.1 percent of stops involving Black motorists, Hispanic motorists were arrested in 2.7 percent of stops involving Hispanic motorists, and Asian motorists were arrested in less than 1 percent of stops involving Asian motorists.

As illustrated in Table 1, most arrests were based on a **violation of the penal code** (62.5%; 182/291) or an **outstanding warrant** (26.1%; 76/291).

Finally, as presented in Table 1, **physical force resulting in bodily injury** occurred once in 2022. Of the 11,991 total stops, one involved physical force resulting in bodily injury. In this instance, the suspect was injured.

Comparative Analysis #3:

Evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches. Texas Code of Criminal Procedure Article 2.134(c)(1)(C)

In 2022, a total of 402 **searches** of motorists were conducted, or 3.4 percent of all stops resulted in a search (see Table 2). Among searches within each racial/ethnic group, White motorists were searched in roughly 3.0 percent of all stops of White motorists (119 searches / 4,013 motor vehicle stops), Black motorists were searched in 6.3 percent of all stops of Black motorists, Hispanic motorists were searched in 3.5 percent of all stops of Hispanic motorists, and Asian motorists were searched in less than 1 percent of all stops of Asian motorists.

As illustrated in Table 2, the most common reason for a search was probable cause (41.3%; 166/402). Among **searches based on probable cause** within each racial/ethnic group, White motorists were searched based on probable cause in 35.3 percent of all searches of White motorists (42 probable cause searches / 119 total searches), Black motorists were searched based on probable cause in 55.2 percent of all searches of Black motorists, Hispanic motorists were searched based on probable cause in 34.9 percent of all searches of Hispanic motorists, and Asian motorists were searched based on probable cause in 25.0 percent of all searches of Asian motorists (2 total probable cause searches of Asian motorists).

Regarding searches, it should be further noted that 51 out of the 402 searches in 2022, or 12.7 percent of all searches, were based on consent, which are regarded as discretionary as opposed to non-discretionary searches. Relative to the total number of stops (11,991), discretionary consent searches occurred in 0.43 percent of stops.

Among **consent searches** within each racial/ethnic group, White motorists were searched based on consent in 9.2 percent of all searches of White motorists (11 consent searches / 119 total searches), Black motorists were searched based on consent in 10.4 percent of all searches of Black motorists, Hispanic motorists were searched based on consent in 17.4 percent of all searches of Hispanic motorists, and Asian motorists were searched based on consent in 12.5 percent of all searches of Asian motorists (1 total consent search of Asian motorists).

Of the searches that occurred in 2022, and as shown in Table 2, **contraband was discovered** in 201 or 50.0 percent of all searches (201 contraband discoveries / 402 total searches). Most frequently, the contraband discovered in searches was drugs; 69% of the contraband discovered. Finally, as illustrated in Table 2, when contraband was discovered, motorists were arrested roughly 43 percent of the time (87/201).⁵

⁵ Note in Table 2 that the number of searches where contraband was discovered was 201, but the Description of Contraband total is 202. This occurs because more than one form of contraband can be discovered in a single search.

Comparative Analysis #4:

Information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. Texas Code of Criminal Procedure Article 2.134(c)(2)

In 2022, internal records indicate that the University of Texas System Police did not receive any complaints alleging that a peace officer employed by the agency engaged in racial profiling.

Additional Analysis:

Statistical analysis of motor vehicle stops relative to the gender population of the agency's reporting area. This analysis is presented in the report based on a December 2020 email sent from TCOLE to law enforcement executives in Texas.

In 2022, 11,991 motor vehicle stops were made by University of Texas System police officers. Of these stops, 4,601 or roughly 38 percent were female drivers (4,601/11,991), and roughly 62 percent were male drivers (see Table 1).

According to 2022 enrollment information, the University of Texas System was composed of 56 percent female students and 44 percent male students.⁶

Overall, in 2022, male drivers were stopped at rates higher than their proportion of the University of Texas System student population.

Additional Information Required to be Reported to TCOLE

Table 3 below provides additional information relative to motor vehicle stops in 2022 by the University of Texas System Police Department. The data are required to be collected by the University of Texas System Police Department under the Texas Code of Criminal Procedure Article 2.133.

As previously noted, the University of Texas System Police Department received no complaints alleging that a peace officer employed by the agency engaged in racial profiling in 2022. Furthermore, as previously discussed, of the 11,991 motor vehicle stops in 2022, the officer knew the race/ethnicity of the motorist prior to the stop in 0.83% of the stops (100/11,991).

⁶ Student demographic information was obtained from the August 2022 University of Texas System "Smartbook" produced by the Office of Institutional Research and Analysis. This report can be accessed at <http://data.utsystem.edu/SmartBook>

Analysis of Racial Profiling Compliance by University of Texas System Police

The foregoing analysis shows that the University of Texas System Police is fully in compliance with all relevant Texas laws concerning racial profiling, including the existence of a formal policy prohibiting racial profiling by its officers, an education and training process, a formalized complaint process, and the collection of data in compliance with the law.

In addition to providing summary reports and analysis of the data collected by the University of Texas System Police in 2022, this report also included an extensive presentation of some of the limitations involved in the level of data collection currently required by law and the methodological problems associated with analyzing such data for the University of Texas System Police as well as police agencies across Texas.

Appendix A
Racial Profiling Statutes and Laws

Texas Racial Profiling Statutes

Art. 3.05. RACIAL PROFILING.

In this code, "racial profiling" means a law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.

Added by Acts 2001, 77th Leg., ch. 947, Sec. 2, eff. Sept. 1, 2001.

Art. 2.131. RACIAL PROFILING PROHIBITED.

A peace officer may not engage in racial profiling.

Added by Acts 2001, 77th Leg., ch. 947, Sec. 1, eff. Sept. 1, 2001.

Art. 2.132. LAW ENFORCEMENT POLICY ON RACIAL PROFILING.

(a) In this article:

(1) "Law enforcement agency" means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make motor vehicle stops in the routine performance of the officers' official duties.

(2) "Motor vehicle stop" means an occasion in which a peace officer stops a motor vehicle for an alleged violation of a law or ordinance.

(3) "Race or ethnicity" means the following categories:

- (A) Alaska native or American Indian;
- (B) Asian or Pacific Islander;
- (C) black;
- (D) white; and
- (E) Hispanic or Latino.

(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

- (1) clearly define acts constituting racial profiling;
- (2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;

(4) provide public education relating to the agency's compliment and complaint process, including providing the telephone number, mailing address, and e-mail address to make a compliment or complaint with respect to each ticket, citation, or warning issued by a peace officer;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to motor vehicle stops in which a ticket, citation, or warning is issued and to arrests made as a result of those stops, including information relating to:

(A) the race or ethnicity of the individual detained;

(B) whether a search was conducted and, if so, whether the individual detained consented to the search;

(C) whether the peace officer knew the race or ethnicity of the individual detained before detaining that individual;

(D) whether the peace officer used physical force that resulted in bodily injury, as that term is defined by Section 1.07, Penal Code, during the stop;

(E) the location of the stop; and

(F) the reason for the stop; and

(7) require the chief administrator of the agency, regardless of whether the administrator is elected, employed, or appointed, to submit an annual report of the information collected under Subdivision (6) to:

(A) the Texas Commission on Law Enforcement; and

(B) the governing body of each county or municipality served by the agency, if the agency is an agency of a county, municipality, or other political subdivision of the state.

(c) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make motor vehicle stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make motor vehicle stops. The agency also shall examine the feasibility of equipping each peace officer who regularly detains or stops motor vehicles with a body worn camera, as that term is defined by Section 1701.651, Occupations Code. If a law enforcement agency installs video or audio equipment or equips peace officers with body worn cameras as provided by this subsection, the policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a motor vehicle stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

I. PURPOSE

The purpose of this policy is to reaffirm the commitment of the University of Texas System Police to unbiased policing in all encounters between a police officer and any person; to reinforce procedures that ensure public confidence and mutual trust by providing services in a fair and equitable fashion; and to protect police officers from unwarranted accusations of misconduct when they act within the dictates of this policy and the law.

II. POLICY

It is the policy of the University of Texas System Police ("UT System Police") to police in a proactive manner and to investigate suspected violations of law. Within that mandate, UT System Police officers shall actively enforce local, state, and federal laws in a responsible and professional manner, without unlawful regard to race, gender, sexual orientation, ethnicity, or national origin. Moreover, the UT System Police strictly prohibits its officers from engaging in bias-based profiling or racial profiling as those terms are defined in this policy.

Two of the fundamental rights guaranteed by the United States and Texas constitutions are equal protection under the law and freedom from unreasonable searches and seizures by government agents. Accordingly, UT System Police officers shall conduct themselves in a dignified and respectful manner at all times when dealing with the public. Finally, bias-based profiling and racial profiling, in particular, are unacceptable policing tactics and are strictly prohibited.

This policy shall not preclude police officers from offering assistance, such as when they observe a substance leaking from a vehicle, a flat tire, or someone who appears to be ill, lost, or confused. Nor does this policy prohibit an officer from stopping a person suspected of a crime based upon observed actions and/or information received about the person.

This policy applies to all police officers commissioned under the authority of the Board of Regents of The University of Texas System and the Director of Police, and to all other employees of UT

institution police departments. Moreover, this policy applies to police officers' actions with respect to all persons, whether those persons are drivers, passengers or pedestrians.

III. DEFINITIONS

- A. Bias — the selection of an individual based solely on a common trait of a group, including, but not limited to, race, ethnicity, gender, sexual orientation, religion, economic status, age, and/or cultural background.
- B. Bias-Based Profiling — a law enforcement-initiated action, detention or interdiction based solely on a trait common to a group of people, rather than on the individual's behavior and/or information tending to identify the individual as having engaged in criminal activity.
- C. Law Enforcement Agency — means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make motor vehicle stops in the routine performance of the officers' official duties.
- D. Motor Vehicle Stop — means an occasion in which a peace officer stops a motor vehicle for an alleged violation of a law or ordinance.
- E. Police Officer — any person licensed by the Texas Commission on Law Enforcement and commissioned as a peace officer under the authority of the Board of Regents of The University of Texas System and the Director of Police who is (1) otherwise qualified, pursuant to Section 51.203 of the Texas Education Code, and (2) defined as a peace officer under Article 2.12 of the Texas Code of Criminal Procedure.
- F. Race or Ethnicity — means of a particular descent, including Alaskan Native or American Indian, Asian or Pacific Islander, Black, Caucasian/White, or Hispanic/Latino.
- G. Racial Profiling — a law enforcement-initiated action based solely on an individual's race, ethnicity, and/or national origin, rather than on the individual's behavior and/or information tending to identify the individual as having engaged in criminal activity.
- H. UT System Police — a dedicated, full-service law enforcement agency authorized by the State of Texas. The UT System Police includes all UT institution police departments, as well as The University of Texas System, Office of the Director of Police. The UT System Police is a single state law enforcement agency, as defined and recognized by the Texas Commission on Law Enforcement. The agency head chief administrator is the Director of Police.

IV. PROHIBITION

- A. The use of bias-based and/or racial profiling by police officers in any law enforcement encounters with persons viewed as suspects and/or potential suspects in criminal activities is strictly prohibited. The encounters to which this prohibition applies include, but are not limited to, motor vehicle stops, field contacts, and asset seizure and forfeiture operations.
- B. The prohibition against bias-based profiling and racial profiling does not preclude the UT System Police from using race, ethnicity, or national origin as factors in a detention decision. For instance, a suspect's race, ethnicity, or national origin may be legitimate factors in deciding whether to detain the suspect when those factors are used as a physical description of a specific suspect for whom a police officer is searching.

Detaining a person and inquiring into that person's activities solely because of that person's race, ethnicity, or national origin, or solely because of bias, is prohibited bias-based profiling or racial profiling.

Examples of racial profiling include, but are not limited to, the following:

1. Citing a driver who is speeding in a stream of traffic where most other drivers are speeding, solely because of the cited driver's race, ethnicity, or national origin.
2. Detaining the driver of a vehicle solely based on the determination that a person of that race, ethnicity, or national origin is unlikely to own or possess that specific make or model of vehicle.
3. Detaining a person solely based on the determination that a person of that race, ethnicity, or national origin does not belong in a specific geographic area or a specific place.

V. TRAINING

- A. A police officer shall complete the Texas Commission on Law Enforcement ("TCOLE") training and education program on racial profiling not later than (1) the second anniversary of the date the officer is licensed under Chapter 1701 of the Texas Occupations Code or (2) the date the officer applies for an intermediate proficiency certificate, whichever is earlier.
- B. After initial training, UT System police officers will be required to attend in-service training on bias-based profiling every calendar year.

VI. COMPLAINT INVESTIGATION

- A. The UT System Police shall accept complaints from any person who believes that a UT System Police officer has engaged in bias-based profiling or racial profiling with respect to him or her. No person shall be discouraged, intimidated, or coerced from filing a complaint, nor discriminated against because he or she files such a complaint.
- B. In addition, any UT System Police officer or UT institution police department employee who receives an allegation of bias-based profiling or racial profiling shall record the name, address and telephone number of the person who lodges the allegation and shall (1) forward the complaint to the Chief of Police or his/her designee, or (2) direct the person how to do so. To direct the person on the filing of such a complaint, the officer or employee shall provide the person a copy of the complaint form (DP-42) and describe the process for filing a complaint.

All UT System Police officers and UT institution police department employees shall report any allegations of bias-based profiling or racial profiling to their respective superiors prior to the end of their shifts.

- C. In processing and investigating any complaint alleging that a UT System Police officer has engaged in bias-based profiling or racial profiling, the UT System Police shall follow UT System Office of the Director of Police Policy 204 – Complaint Investigation.
- D. At the commencement of the investigation into the complaint, the appropriate institution police department shall determine whether there is a video and/or audio recording of the event upon which the complaint is based. If a recording exists, the department shall promptly provide a copy of it to the police officer who is the subject of the complaint on his or her written request.

- E. At the conclusion of the investigation, the department shall forward all findings and/or disciplinary action, retraining, or policy changes to the Director of Police.
- F. If a bias-based profiling or racial profiling complaint is sustained against a UT System Police officer and in violation of this policy, that officer shall be subject to corrective action, which may include reprimand; diversity, sensitivity or other appropriate training or counseling; paid or unpaid suspension; termination of employment, or other appropriate action as determined by the institution Chief of Police.

VII. PUBLIC EDUCATION OF THE UT SYSTEM POLICE COMPLIMENT AND COMPLAINT PROCESS

The UT System Police will provide public education relating to the agency's compliment and complaint process, including providing the telephone number, mailing address, and e-mail address to make a compliment or complaint with respect to each ticket, citation, or warning issued by a peace officer.

The UT System Police compliment and complaint process will be advertised by utilizing the news media, service or organization presentations, the Internet (to include, but not limited to, social media and institution police department websites), campus meetings, and/or the UT System Police Office of the Director of Police web page whose internet link is "<http://www.utsystem.edu/offices/police>".

- B. Not later than February 1 of each year, the Chief of Police of each institution police department shall submit to the Director of Police a report containing the information required by Paragraph A that his or her police department compiled during the previous calendar year.
- C. After receiving the information described in Paragraph B, the Director of Police shall compile and analyze the information contained in each report. Not later than March 1 of each year, the Director of Police shall submit a report of the information collected under Paragraph A to TCOLE and to The University of Texas System Board of Regents.
- D. The report required by Paragraph B shall not include identifying information about the peace officer who makes a motor vehicle stop or about the person who is stopped or arrested by the peace officer. I. PURPOSE

The purpose of this policy is to provide a specific procedure for processing and resolving a complaint by any person regarding the conduct of a law enforcement officer or civilian employee of the University of Texas System Police (UTSP) and to insure an impartial and unbiased investigation. This Policy should be read in conjunction with ODOP Policy 208 -Discipline and Appeal Procedure and ODOP Policy 205 - Grievance Procedure.

It is important to note that our philosophy is to train officers to be successful and recognize that mistakes will be made from time to time. Disciplinary sanctions are only one of many alternatives available to UTSP leadership to ensure we have a 21st century gold standard university law enforcement agency.

Throughout these procedures the rights of the individual police officer or employee and the citizen must be acknowledged and not compromised.

II. POLICY

It is the policy of the University of Texas System Police to accept, investigate and resolve complaints concerning the conduct of law enforcement officers and civilian employees of the University of Texas System Police.

Effective law enforcement depends on a relationship of trust and confidence between the University of Texas System Police and the university; employees must be free to exercise their own judgment and take enforcement action in a reasonable, lawful, and impartial manner without fear of reprisal.

Likewise, it is also important to establish a disciplinary process that enables the University of Texas System Police to initiate positive, corrective action for improper conduct.

It is the responsibility of the Chief of Police to ensure that this policy and the impact it may have on personnel processes are shared with your respective Human Resources counterpart.

III. SCOPE

- A. This procedure is established to provide an orderly, effective, and efficient process for receiving and investigating complaints and to properly report the results of such investigations. A complaint against a police officer or civilian employee may be lodged by any person.
- B. This procedure does not apply to:
 - 1. Routine corrective action by a supervisor that would not result in disciplinary action. Corrective action, counseling, coaching and mentoring are primary duties of a supervisor and are not considered complaints subject to this policy.
 - 2. Concerns regarding quality of service or minor performance shortcomings that would not result in discipline.
- C. The investigation of allegations of improper actions other than illegal acts by UTSP police officers or civilian employee shall be considered a Class I or Class II complaint investigation. Nothing in this policy shall preclude a separate and completely independent criminal investigation of a police officer or civilian employee who is the subject of an administrative complaint investigation. When there is reason to believe that a crime has been committed, the affected police officer or civilian employee's Chief shall decide if the administrative complaint investigation should continue. The affected police officer or civilian employees' Chief of Police shall notify the Office of the Director of Police (ODOP) and request that a criminal investigation be conducted. The final decision to whether a criminal investigation will be conducted rest with the Director of Police.

IV. DEFINITIONS

For the purposes of this policy, the following definitions apply:

- A. **Administrative Leave with Pay:** When an employee is the subject of a disciplinary investigation and it is determined by the Chief of Police that the employee should be relieved from regular duties.

Employee: Any full-time, part-time, or temporary paid member of the UTSP, to include police officers, public safety officers, telecommunication officers, security guards, shuttle drivers, administrative staff, access control personnel, parking personnel, budget analyst, and any and all civilian employees that report to the chief of police.
- G. Director of Police: The Director of Police, chief administrative officer for ODOP, the Agency Administrator for the UTSP, and chief law enforcement officer for the University of Texas System.
- H. Performance Concern: Information received from citizens regarding quality of service or minor rules violations that can be addressed through supervisory documentation and does not rise to the level that necessitates a complaint.
- I. Performance Folder: A temporary log of performance issues that have been corrected.

V. COMPLAINT PROCEDURE

- A. Performance Concern: Some concerns are very minor and should be resolved at the minimum supervisory level without requiring DP-42 documentation. Supervisors are encouraged to mediate a minor concern that can be resolved at the initial contact with the complainant when both parties can be satisfied with the outcome. Minor performance concerns will be documented and placed in the employee's performance folder.

Within 14 days of receipt of the complaint, supervisors will:

All DP-42 forms will be forwarded through the chain of command to the affected employee's Chief as soon as practicable after initiation and a copy will be forwarded to the Director of Police.

4. By Telephone

When a complaint is received by phone the caller will be advised of the statutory requirement as described above and request that the complaint be submitted in writing.

5. Complaint Not In Writing

a) If the complainant refuses to put the complaint in writing, it should be explained that this will not necessarily prevent an investigation from being conducted, but that failure to submit the allegation(s) in writing could cause the complaint to be more difficult to investigate.

b) In instances when a complaint is not received in written form, the initiating supervisor will record the complaint on Form DP-42 and affix his/her signature.

6. Anonymous Complaints

Anonymous complaints will be investigated regardless of the manner in which the complaint is received.

7. Complaints Initiated or Received by Supervisor

Supervisory or command personnel will initiate a Form DP-42 when they have firsthand knowledge or reliable information regarding a Class I or Class II violation.

Supervisory or command personnel receiving or initiating a complaint involving an employee not subject to their immediate supervision will initiate and forward a Form DP-42 to the affected employee's supervisor or commander as soon as practical.

D. Documentation

The following information, if available, will be included in the complaint:

1. The complainant's and witnesses' names, addresses, telephone numbers.
2. Date, time, and place of alleged misconduct.
3. Identification of the employee(s) involved.
4. Nature of the complaint.
5. Any action taken in an attempt to resolve the complaint.

E. Routing of Complaints

Class I and II complaints will be forwarded through the chain of command to the affected employee's Chief who will review the allegations and assign the complaint-if warranted-to the appropriate supervisor or Internal Affairs investigator.

F. Time Limit on Accepting Complaints

Personnel complaints will not be accepted more than thirty (30) days after the alleged incident, with the following exceptions:

1. When the complaint involves a criminal violation, the criminal statute of limitations will prevail. These limitations will not prevent the department from taking action deemed necessary to preserve the integrity of the department.
2. When the complainant can show good cause for not making the complaint within the specified time limit, the Chief of Police may waive this requirement.
3. When the Chief of Police or the Director of Police deem necessary.

G. Notifications Class I and II Complaints

1. To Complainant:

- a) After completing the DP-42, the complainant will be provided a copy of the document which will serve as the complainant's receipt.
- b) The investigating officer will provide the complainant periodic status reports on the progress of the investigation.
- c) Upon conclusion of the investigation, the complainant will be notified of the results of the investigation.

2. To Affected Employee:

- a) A copy of the completed Form DP-42 should be provided to the affected employee by his or her supervisor or assigned investigator as soon as practicable after the complaint is received. This must be done before any disciplinary action may be taken against the employee. The employee shall be advised to refrain from contacting the complainant regarding the complaint or subsequent investigation.
- b) The employee must be advised of and furnished copies of the complaint procedure and the supervisor or assigned investigator must obtain a timed and dated receipt of acknowledgement from the officer.

3. Employee Right to Respond

- a) At the time the employee is furnished a copy of the complaint, the employee may be compelled to respond to the allegations.
- b) If, during the course of an investigation, additional Class I or Class II violations are discovered, the affected employee will be afforded the opportunity to respond to these allegations in the same manner as the original complaint.

H. Administrative Leave with Pay

In situations involving aggravated or serious circumstances, the affected officer's Chief may immediately place the employee on administrative leave with pay subject to the investigation.

1. Administrative leave with pay:

- a) If allegations involve serious misconduct, the affected employee's Chief may immediately place the employee on Administrative Leave with Pay.
- b) Examples of serious misconduct include, but are not limited to, criminal offenses of the felony grade, Class A or B misdemeanors, direct insubordination, and conduct which would indicate that the employee is no longer fit for duty. Administrative leave may only be imposed by the affected employees' Chief or designee and shall not exceed thirty (30) calendar days in length unless extended as hereinafter provided and such shall be communicated in writing to the employee. The administrative leave will expire when administrative action is taken against the employee or a finding of exonerated or non-sustained is made.

2. Notification of Administrative Leave

The employee will be notified in writing by his or her Chief or designee of administrative leave without undue delay. The written notice shall include the reason(s) in sufficient detail to reasonably enable the officer to respond. The notice will also contain an order informing the employee that he or she is prohibited from performing any job related duties during the period of administrative leave.

3. Surrender of Equipment

While on administrative leave, the employee is required to surrender all department issued equipment to include firearms, identification cards, badge(s) keys, computers, cellular telephones, etc.

4. Notification to Director of Police

When an employee is placed on administrative leave, the Director of Police will be notified immediately, utilizing the Personnel Disciplinary Report DP -32.

5. While on administrative leave, the employee is required to remain readily available by an agreed method to the Chief of Police, and may be summoned to the department on a short notice.

6. Reinstatement of Employee:

An employee who has been placed on administrative leave shall be reinstated if the employee's Chief has exonerated him or her or a finding of non-sustained or unfounded was made.

VI. INVESTIGATION

The affected employee's Chief will be responsible for ensuring a complete, objective, and expeditious investigation of any complaint. If a resignation is received from an employee under investigation, the Chief shall determine whether the investigation should continue.

A. Who Shall Investigate

1. Only the Chief or his designee will investigate Class I complaints and the assigned investigator shall have the ability to report his/her findings directly to the Chief.
2. Class II Complaints may be investigated by the affected employee's supervisor and/or the Internal Affairs investigator.
3. The investigation of alleged misconduct by sworn police officers shall be conducted by a police officer whom the institution Chief has identified or designated as responsible for internal affairs investigations. Any sworn officer so identified or designated must successfully complete a recognized academic course of instruction on how to conduct such investigations which has been approved by the institution police chief. This ensures the investigation meets the relevant legal requirements and standards, reduces the department's exposure to liability or litigation and protects the rights of the police officer being investigated.

B. Purpose of Investigation

The purpose of an investigation is to examine the facts associated with a complaint to ascertain the truth. The investigator shall make every attempt to conduct an investigation in a manner that will prove or disprove the allegations of misconduct rather than leave them unresolved. There is no presumption of guilt associated with the employee against whom the allegation is made.

C. Procedure for Investigation

If the alleged improper act could be a crime or a Class I or Class II violation, the investigation shall include:

1. Personal contact with the complainant by the investigator (when at all possible) to fully discuss the complaint.
2. Personal contact with the accused employee by the investigator, in every instance, to fully discuss the allegations.
3. Personal contact when at all possible with all known witnesses.
4. The investigator has the option of recording interviews with the complainant, witness, and/or accused employee for review and preparation in typed form.
5. The investigator should attempt to obtain statements (written and signed) from complainants, accused employee, and/or witnesses as deemed necessary to support or refute the allegations being investigated. Statements shall be taken on a form approved by ODOP.
6. Obtaining all known relevant legal evidence and/or other documents to support or refute the allegations being investigated. The investigator, with specific authorization by the affected officer's Chief, will be allowed access to all necessary departmental records.
7. Implementation of scientific investigative aids (laboratory services, polygraph, etc.) as deemed necessary by the investigator to support the integrity of the investigation.

8. Investigator submission of a detailed investigation report fully addressing all allegations made, setting forth the facts as determined, including all statements, pertinent matters or items of legal evidence, supporting documentation, and a summary or synopsis of the case including a clear indication of the seriousness of the case and a finding of fact.

D. Interview Techniques

The investigative techniques employed by the internal affairs investigator may include orders to employees to:

1. Conduct a videotape reenactment
2. Be photographed
3. Participate in a physical line-up
4. Submit financial disclosure statements
5. Produce documents reasonably related to an investigation
6. Submit to an instrument for the detection of deception
7. Scientific examinations

E. Cooperation

1. Any employee who is the subject of an administrative complaint investigation shall cooperate fully and answer all questions posed by authorized representatives of the department during the investigation. All department employees questioned concerning their knowledge of a complaint will cooperate fully and truthfully answer all questions.
2. Any employee who refuses to cooperate or answer all questions concerning the administrative complaint investigation shall be subject to disciplinary action. If an employee refuses to answer the questions of the investigator(s) in an administrative complaint investigation on the grounds that he might incriminate himself, the investigator shall discontinue any questioning and his or her Chief shall be advised of the position taken by the employee. The Chief shall make a determination as to whether the employee shall be required to cooperate and answer the questions posed to him or her. If the Chief determines that the employee shall be required to respond, the Chief or his designee shall so advise the employee in writing.
 - a) Police Officer: utilizing a Garrity Warning (see example in Appendix C) setting out the reasons for the decision and the possible consequences of the officer continuing to refuse to respond to the questions. If, after being advised of his or her rights, the officer thereafter refuses to answer questions pertinent to the investigation he or she may be subject to disciplinary action, including termination from employment for insubordination.
 - b) Civilian Employee: A written order to the employee setting out the reasons for the decision and the possible consequences of the employee continuing to refuse to respond to the questions. If, after being advised of his or her rights, the employee thereafter refuses to answer questions pertinent to the investigation he or she may be subject to disciplinary action, including termination from employment for insubordination.

F. Confidentiality

It is prohibited for any departmental employee having knowledge of or engaged in an administrative complaint investigation involving a University of Texas System Police employee to divulge to any person any information regarding the current investigations. The only exceptions will be talking to assigned investigators, supervisory command, clergy, attorney, licensed counselor or physician. No employee shall by writing, speaking, utterance, or any other means commit an act; or cause another person to commit an act, which would hinder or obstruct an administrative investigation.

G. Length of Investigation

Complaint investigations shall be completed, reviewed, and submitted to the affected employee's Chief not later than 30 calendar days following the receipt of such complaint unless additional time is granted by the Chief. If additional time is granted, the Chief of Police will notify ODOP of the extension.

H. Interview of Accused

1. Personnel who are assigned to investigate complaints involving an employee's non-criminal misconduct shall be required to conduct a detailed, timely, and objective interview with the employee accused of the misconduct. The purpose of this interview is to secure from the employee a comprehensive and factual response to the complaint.
2. The results of the interview will be reduced to writing and any statement obtained during this interview will be obtained under oath. Any further response or rebuttal the employee desires to make will be provided to the investigator within five (5) calendar days and included in the investigative report. The accused employee will not be permitted to have counsel present during an interview regarding alleged non-criminal misconduct.

I. Polygraph Examination -from Sec. 614.063 *Texas Government Code*

(a) A peace officer may not be suspended, discharged, or subjected to any other form employment discrimination by the organization employing or appointing the peace officer because the peace officer refuses to submit to a polygraph examination as part of an internal investigation regarding the conduct of the peace officer unless:

- (1) The complainant submits to and passes a polygraph examination; or
- (2) The peace officer is ordered to take an examination under Subsection (d) or (e).

(b) Subsection (a)(I) does not apply if the complainant is physically or mentally incapable of being polygraphed.

(c) For the purposes of this section, a person passes a polygraph examination if, in the opinion of the polygraph examiner, no deception is indicated regarding matters critical to the matter under investigation.

(d) The head of the law enforcement organization that employs or appoints a peace officer may require the peace officer to submit to a polygraph examination under this subsection if:

- (1) the subject matter of the complaint is confined to the internal operations of the organization employing or appointing the peace officer;
- (2) the complainant is an employee or appointee of the organization employing or appointing the peace officer; and

(3) the complaint does not appear to be invalid based on the information available when the polygraph is ordered.

(e) The head of the law enforcement organization that employs or appoints a peace officer may require the peace officer to submit to a polygraph examination under this subsection if the head of the law enforcement organization considers the circumstances to be extraordinary and the head of the law enforcement organization believes that the integrity of a peace officer of the law enforcement organization is in question. The head of the law enforcement organization shall provide the peace officer with a written explanation of the nature of the extraordinary circumstances and how the integrity of a peace officer or the law enforcement organization is in question.

J. Officials Apprised

The Director of Police and the appropriate institution Vice President will be kept apprised regarding complaint investigations of a very serious nature when:

4. Publicity may result.

K. Withdrawal of Complaints

2. All Complaint Waiver Request Forms shall be forwarded to the affected employee's Chief as soon as practicable.
3. The fact that a complainant has withdrawn a complaint does not necessarily terminate the investigation. The decision to terminate the investigation rests with the affected employee's Chief.

L. False Information

VII. DETERMINATION, NOTICE AND DISCIPLINARY ACTION

A. Investigation Review

1. The affected employee's Chief shall be responsible for reviewing the investigation and providing written notification to the employee advising the employee of the findings and whether or not disciplinary action is forthcoming in the case. This notification must be prior to any disciplinary action.
2. The notification should be delivered to the affected employee in person or by certified mail, return receipt requested, to the employee's last known address.
